

# Gujarat Industries Power Co. Ltd

## **Project Management, Execution and Project Financing**

### **Overview & Objective:**

In past few decades, Power sector has emerged as a key factor for sustaining the growth of Indian Economy. The government of India also formulated lot of legislative and policy measures during the last decade to attract investment and boost up the growth of the sector. With enactment of the EA Act 2003, generation was de-licensed and numbers of projects have been taken up in the 11<sup>th</sup> and 12<sup>th</sup> plan to boost up the capacity addition in the power sector.

Establishing of any power project involves huge investment and lot of intricacies in terms of execution of the Project. It requires careful planning, statutory clearances, land acquisition, technology selection, procurement, construction and commissioning, O&M and financing activities.

Objective of this training program is to familiarize the participant with various aspects of Power Project management and tools and techniques involved in the execution of the project.

GIPCL has already successfully installed 815 MW of gas, lignite and solar projects from grass root level. The team at GIPCL has extensive firsthand experience of Project execution from scratch. The programme will be a great opportunity to learn and familiarize with issues and challenges in implementation of a power project.
