SECTION-A

INSTRUCTIONS TO BIDDERS

1. Plant Synopsis:

Gujarat Industries Power Company Limited (GIPCL) (henceforth be named Company/GIPCL), is a Premier Power Utility in the State of Gujarat with an installed capacity of 1084.4 MW comprising of various conventional and renewable projects.

GIPCL commissioned its first power project; a 145 MW gas based combined cycle power plant in 1992 at Vadodara. It expanded its capacity 165 MW Naptha and gas based Combined Cycle Power Plant at Vadodara in 1997. GIPCL has commissioned 1MWp Distributed Solar Power Projects at two locations in Gujarat viz. at Village: Amrol, Dist.: Anand and at Village: Vastan, Taluka Mangrol, Dist.: Surat

Surat Lignite Power Plant (SLPP) with four units of 125 MW capacity each is located at Village: Nani Naroli, Taluka: Mangrol, District: Surat in Gujarat. GIPCL has also operating its own captive Lignite and Lime Stone Mines close to the Power Plant. The Power Plant is based on Circulating Fluidized Bed Combustion (CFBC) technology for the Boilers, where Lignite is burnt along with Lime Stone in the Combustor of the Boiler.

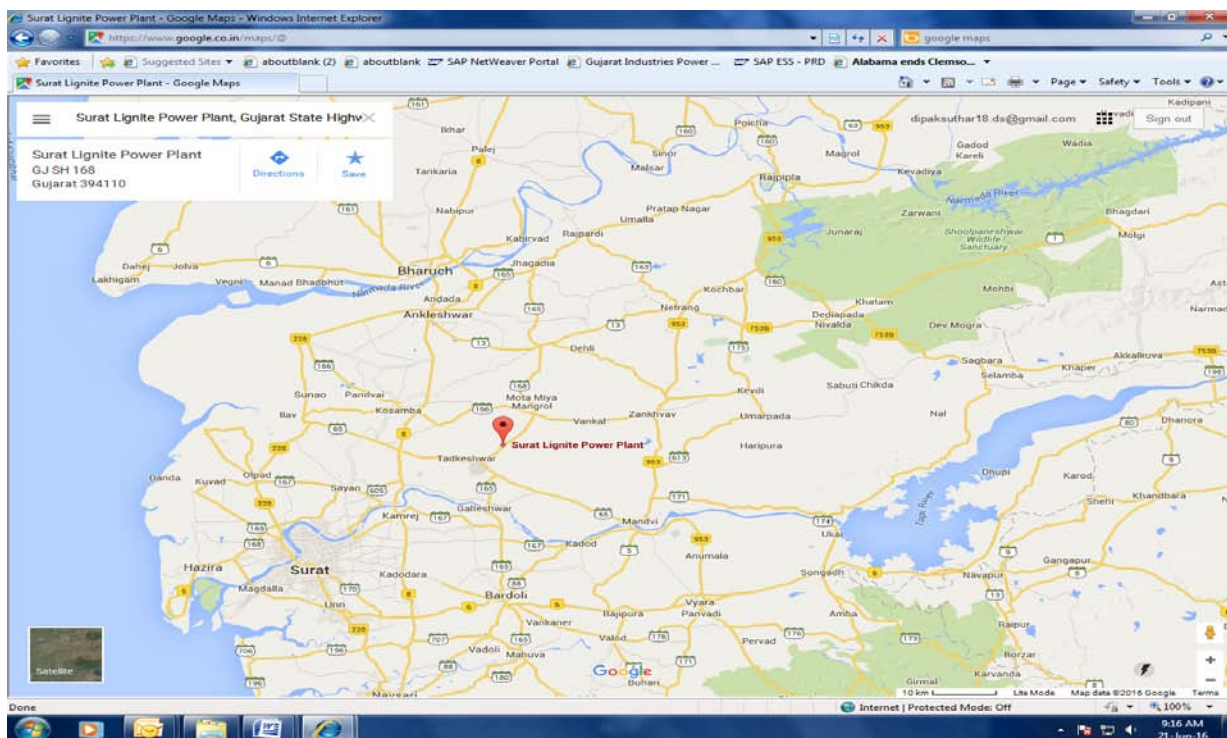

It commissioned 5 MW solar power station at SLPP in 2012. Also, GIPCL has commissioned 1MWp Distributed Solar Power Projects at two locations in Gujarat viz. at Village: Amrol, Dist.: Anand and at Village: Vastan, Taluka Mangrol, Dist.: Surat.

GIPCL has successfully commissioned a 2 x 40 MW Solar Project in 2017 as well as a 75 MW Solar Power Project in 2019 at Gujarat Solar Park, Village Charanka, Dist.: Patan. GIPCL has also successfully commissioned 112.4 MW wind farms at different location of Gujarat.

GIPCL is presently executing a 100 MW Solar PV project at the Raghanesda Solar Park, Gujarat.

Surat Lignite Power Plant (SLPP) is accessible by road from Kim and Kosamba, which are on Mumbai-Ahmadabad highway. From Kosamba, SLPP is around 32 KM, out of which 27 KM is part of the National & State Highway and balance 5 KM is District Road. From Kim, SLPP is around 18 KM, out of which 13 KM is the State Highway and balance 5 KM is District Road. The nearest Broad Gauge Railway Line is at Kim, which is around 21 KM from the SLPP. Surat is approximately 50 KM from the SLPP. Location Map for SLPP is as under.

TENDER FOR ARC OF COOLING WATER TREATMENT AT GIPCL SLPP PLANT (2021-23)". BID NO.: GIPCL/C&L/CW/2021-23

The Company intends to award biennial rate contract for the work of Cooling Water Treatment at GIPCL -SLPP for a period of Two Years and is therefore inviting open tenders online (n-procure portal) from experienced & resourceful contractors.

1.1 Plant Visit:

It is perquisite and necessary for all interested bidders to visit the Surat Lignite Power Plant (SLPP) after downloading the tender copy from website: <https://www.nprocure.com> or <https://gipcl.nprocure.com> or www.gipcl.com to understand the actual working conditions, compliance related to labor, safety etc... before submitting their offer. Failing which, any consequential liabilities arising will be to bidder's account. The Bidders shall examine the site of works and its surroundings at his/her own responsibility. The bidders shall collect information that may be necessary for preparing the Bid and entering into a contract. All costs and liabilities arising out of the site visit shall be at Bidder's account.

The Bidder is deemed to have examined and understood the tender document, obtained his/her own information in all matters whatsoever that might affect the carrying out the works expressly mentioned or works which may have to be carried out to fulfill his/her contractual obligation within the scheduled rates and to have satisfied himself/herself to the sufficiency for his/her offer.

1.2 Site Visit:

Site visit will be arranged at Surat Lignite Power Plant as per details given in the NIT (Notice Inviting Tender). **It is perquisite and necessary for all interested bidders to carry out site visit or bidder may send their authorized representative along with authorization letter for site visit before submission of bid.**

It is necessary to carry out site visit to understand in detail regarding actual working conditions, scope of work with respect to estimated requirements of material, manpower, supervisors, transport vehicles, tools & tackles, statutory & legal requirements, special requirements, to understand, resource & equipment requirements, approaches, plant O&M requirements, etc. Site visit may be carried out before submission of bid with prior intimation to GIPCL.

2. Scope Of Work:

- 2.1 Detail Scope of Work for BRC for Cooling Water Treatment at GIPCL-SLPP is mentioned in Section-D.
- 2.2 The bid submitted by the bidder not covering the total scope of work and services as detailed out in the tender document shall be liable for rejection.
- 2.3 Chemical quantity is indicated for two years, to maintain specified result or cooling water chemistry. However to maintain specified parameter in Annexure -1 of section –D, supplier has to provide extra chemicals quantities of required chemicals with free of cost.
- 2.4 All the miscellaneous activities pertaining to specific work to be executed for satisfactory performance is in the scope of contractor in his quoted rates.

3. General Instructions:

- 3.1 The Bidders who are interested in participating in the tender must read and comply with the instructions and the Terms & Conditions contained in the tender documents.
- 3.2 The Bids shall be filled in by the Bidders clearly, neatly and accurately. Any alteration, erasures or overwriting shall be liable to make the tender invalid unless the same is neatly carried out and attested over the full signature of Bidder. The decision of the Company to interpret the information and rates filled in by the Bidder shall be final and binding on the Bidder.
- 3.3 The Bidders are requested to make themselves fully conversant with the General Conditions of Contract, Special Conditions of Contract, Technical Specifications, Site conditions, Safety & Health Aspects and Norms to be observed etc. before submitting their bids so that no ambiguity arises in these respects subsequent to submission of the Bids.
- 3.4 Before quoting the rates, the Bidder should go through the specifications, scope of work etc. and get himself fully conversant with them. The Bid should include, cost of supply of chemicals, cost of mobilization and cost to adhere to all Safety Norms as described in the tender. No relaxation or request for revision of quoted/accepted rates shall be entertained subsequent to the opening of Bid on account of mobilization or Safety costs.
- 3.5 Bidder has to quote the rates in (n) Procure only. Price received in physical form shall not be considered.

- 3.6 Bidder has to submit all the information as per required Bid document. Failure to furnish all the information as per required Bid documents or submission of a Bid containing deviations from the contractual terms and conditions, specifications and requirements, shall be rejected.
- 3.7 The Bids shall be submitted within the time frames set out in the Notice Inviting Tender ('NIT') and Bids submitted thereafter shall not be accepted and considered.
- 3.8 The tender documents shall not be transferable.
- 3.9 The Bidders are expected to examine all instructions, forms, terms & specifications in the Bid documents and to get fully acquainted themselves with all the conditions and matters which may affect the subject matter of the work/tender or the cost thereof. If any Bidder finds any discrepancies or omissions in the specifications and documents or any doubt in true meaning or interpretation of any part, he shall seek necessary clarifications in writing or during site visit if required.
- 3.10 Conditional offers shall not be considered and liable to be rejected.
- 3.11 The Company reserves the right to extend the deadlines for submission of the Bids by giving amendments.
- 3.12 During evaluation of Bids the Company may, at its discretion ask the Bidder (s) for clarification of their Bid. The request for clarification and the response shall be in writing and no change in prices or substance of the Bid shall be sought, offered or permitted.
- 3.13 The Company reserves the right to amend/ modify the Bidding documents at any time prior to the deadline for submission of Bids, either at its own discretion or in response to the clarification requested by a prospective Bidder. In such case, the Company may in its discretion extend the deadline for submission of Bids in order to facilitate the prospective Bidders for incorporating the effect of the amendment in their Bids.
- 3.14 The Bidders shall bear all costs and expenses associated with the preparation and submission of their respective Bids, to attend meetings or conferences, if any, including any pre award discussion with the successful Bidder, technical and other presentations etc. and the Company shall not be liable for any expense thereof.
- 3.15 If the successful Bidder is consortium/ joint deed of undertaking of company ,the consortium leader/Bidder shall accept joint and several responsibilities and liabilities for all obligations under the Contract.
- 3.16 Timely and satisfactory completion of the work and strict adherence to the allotted time frames for jobs shall be the essence of the contract.
- 3.17 The Company reserves the right to qualify/disqualify any applicant without assigning any reason.
- 3.18 The Bidder shall be disqualified if any untrue statement or misrepresentation is made in the Bid forms, attachments and other supporting documents submitted by the Bidder.

- 12.1 The GIPCL will open the pre-qualification/Technical Bid/price Bid, as the case may be, in presence of Bidder's representatives whenever such a procedure has been specified. Otherwise the tender will be opened by the authorized officers of GIPCL.
- 12.2 Preliminary Examination :
 - 12.2.1 The company will examine the Bids for any computational errors, for sureties furnished by bidder, for authentication of documents submitted and completeness of the Bids.
 - 12.2.2 Arithmetical errors will be rectified on the following basis:
 - a) If there is discrepancy between the unit price and the total price that obtain by multiplying the unit price and the quantity. The unit price shall prevail and the total price will be corrected and will be binding to the bidders.

- b) If there is discrepancy between the total bid amount and the sum of total prices, the sum of total prices shall prevail and the total bid amount will be corrected and will be binding to the bidders.

13.0 Evaluation & Comparison Of Bids:

- 13.1 GIPCL shall evaluate the Bids received and accepted by it to ascertain the lowest evaluated Bid in conformity with the specifications of the tender documents.
- 13.2 Bidder has to quote the rates for GIPCL-SLPP plants in (n) Procure only. Bids submitted for only one plant shall not be considered.
- 13.3 The Technical Bids will be examined for minor matters regarding qualification of bids. Subsequent to correspondence with the respective bidders, the decision of Tender Committee will be final.
- 13.4 All responses to requests for clarifications shall be in writing and shall be presented to the Company through e-mail or in a sealed envelope on or before the given date requested by the Company. If the Technical clarifications sought by the Company do not reach the Company on or before due date, the Bid will be rejected.
- 13.5 The comparison of all the Bids shall be carried out with reference to the scope of work as per the technical specification. Any deviation/omission shall be evaluated at highest quoted price of the deviation/omission quoted by any of the Bidder. In case a separate price (for omission) is not given by any other Bidder, a reasonable price of the same shall be taken & the same shall be binding to the Bidders.
- 13.6 The commercial deviation, if any, shall be loaded to bring all the Bids at par. The loading shall be carried out at an interest rate of 2% above PLR of SBI.
- 13.7 A Bid to be substantially responsive shall be one which on evaluation confirms to all the terms, conditions and specifications of the Bid documents without any material deviation or reservation.
- 13.8 For the above referred purpose, a 'material deviation' shall be one which:
 - (a) Which affects in any substantial way the scope, quality or performance of the contract, or
 - (b) Which limits in any substantial way and in a manner inconsistent with the Bid documents, GIPCL's right or the Bidder's obligations, under the contract, or
 - (c) Whose rectification would affect unfairly the competitive position of other Bidders presenting substantially responsive Bids.

14.0 Right Of Rejection Of Tenders:

- 14.1 GIPCL reserves the right to accept or reject any Bid or to cancel the Bidding process and reject all Bids at any time prior to award of contract, without thereby incurring any liability to the affected Bidder or Bidders or any obligation to inform the affected Bidder or Bidders regarding the same.

14.2 Any Tender without EMD and Tender fee will be treated as non responsive and shall be rejected at the outset & no further correspondence shall be entertained regarding this.

14.3 GIPCL reserves the right to debar any Bidder from participation in future Bids if such Bidder has quoted an abnormally low rate in the Bid document/price Bid.

15.0 Award Of Contract:

GIPCL will award the contract to that bidder whose quotation has been determined to be substantially responsive and evaluated as the lowest quotation in conformity with the requirements of the specifications and documents contained herein, provided further that the bidder is determined and evaluated to be qualified to perform the contract satisfactorily.

The successful bidder shall be intimated of his selection through the Letter of Intent or Letter of Award/ Work Order which shall be sent to him through e-mail, courier, fax or registered mail.

GIPCL reserves the right to cancel/short close the contract during the contract period without assigning any reason.

GIPCL reserves the right to split the contract quantity between vendors.

16.0 Contract Period:

16.1 The contract will be for a period of Two Years from the date of actual commencement of operation of the contract as stated in the Work Order ('Contract Period').

16.2 GIPCL reserves the right to extend the Contract Period up to **Three months** on the same rates and terms and conditions without any price escalation and entering into any new contract.

16.3 The said Contract Period can be extended if mutually agreed upon by both the parties up to **Twelve Months** and in such a case a revised work order shall be issued at the same rates and terms & condition or at negotiated rates acceptable by both parties i.e. the Company & the Contractor.

17.0 Assignment And Sub-Letting:

The Contractor shall not directly or indirectly assign or sub-let total/any part of the contract to any other party or agency without written permission from GIPCL.

18.0 Contractor's Obligations:

A: Deployment & Responsibility of Manpower:

- (i) The Contractor shall deploy suitably qualified, experienced manpower in sufficient number for timely & satisfactorily execution of the works under the contract as mentioned in the Section D of Special Condition of Contract.
- (ii) The Contractor shall deploy sufficient skilled, Semi-skilled and Un-skilled manpower separately to properly complete the job in given/scheduled time.
- (iii) The Contractor shall depute its own workmen/labor with proper identification to enter the plant premises after ensuring that the jobs are scheduled.
- (iv) At the time of deploying manpower, the Contractor shall strictly comply all the applicable labor laws/Acts norms including but not restricted to the age of the workers, women workers and shall also ensure that a police verification and security check for all the workmen/labor engaged at the GIPCL site is done and necessary documents regarding the same shall be submitted to the GIPCL's authorized representative/officer-in-charge. Any default in complying with the same or any misrepresentation regarding compliance of the same shall compel GIPCL to initiate appropriate civil or criminal proceedings regarding the same.
- (v) The Contractor shall also comply with the safety requirements and provide his workmen/labor with safety equipment like helmets, masks, gum boots, a uniform (Minimum 03 pairs per year) and other necessary PPEs for properly undertaking the operations involved under this contract. Following are also to be issued by contractor:
 - a) Safety shoes
 - b) Goggles / face shield.
 - c) Helmet
 - d) Ear plug / Ear muff.
 - e) Hand gloves like electrical hand gloves / cotton hand gloves / Chemical hand gloves/Acid apron etc.
- (vi) Contractor shall nominate /authorize senior experienced person in writing as site in charge to co-ordinate with GIPCL engineer or executive and who shall bear overall responsibility for performance of the contract. Such person shall remain always available at site or site office allotted to the contractor. Contractor has to submit the authority letter and documentary proof for the same.
- (vii) The Contractor shall appoint a supervisor who shall co-ordinate with GIPCL's Engineer or executive In - Charge for daily entrusted job. They have to maintain daily records dully signed for the works carried out and duly certified by Engineer-In-Charge. The Contractor in co-ordination with the Engineer/ Executive -In-Charge shall ensure the availability of adequate manpower to carry out the job satisfactorily on a daily basis. As per the instruction of Engineer or Executive -In-Charge they have to allot the work and execute the same in specified time limit.

- (viii) During execution of the work, one or more jobs may be required to be done simultaneously and the Contractor shall mobilize additional resources accordingly.
- (ix) During emergency or similar situations the Contractor shall be required to mobilize resources as per need within the period of 04 hours as directed by GIPCL. If the contractor fails to mobilize sufficient manpower to complete the job in time, GIPCL will execute the job through other agency at the risk and cost of the contractor with 10% supervision charges & the same will be recovered from the Contractor's bill.
- (x) During working in high risk area like hot lines of steam/ water/ oil / acid the workman must wear a suitable safety apron, safety belt, safety hand gloves and goggles. It is the contractor's/contractor's supervisor's responsibility to ensure it without fail. Prior commencement of the work contractor shall ensure that work permit is issued for the relevant work and proper Electrical/Mechanical isolation is done to avoid any untoward incident.
- (xi) During unit overhauling, the contractor has to enhance the site manpower as per the requirement to ensure the timely completion of work (During overhauling period quantum of work increases substantially). For this, enhanced work shall be completed by deploying separate senior supervisor for inspection of condenser and shall collect samples of scale deposition and to carry out composite analysis from third party and report to be submitted within 15 days from sampling date. No separate payment shall be made for the composite analysis of the said sample.

B: Tools & Tackles:

- (i) All tools and tackles required to execute the contract are in the scope of the contractor in his quoted rates. The contractor should ensure that tools and tackles are in healthy & working condition. All consumable items would be in the scope of the contractor in his quoted rates.
Note: If work is suffered due to want of insufficient manpower, tools & tackles, vehicles, equipments and/or required consumables then 25% of the total job cost will be levied as a penalty for each and every instance.
- (ii) For proper execution of the work as per the scope, the contractor is required to maintain sufficient quantity of tools & tackles with tractors & hydraulic trolleys in good working condition at site as per day to day work load and emergency situations to complete the work in stipulated time period.
- (iii) In case of breakdown of equipment, the contractor should work round the clock for putting back the system in service immediately within least possible time. In case of any emergency arising during night hours the contractor should be in a position to mobilize the manpower immediately within minimum time period.
- (iv) Arrangement for lighting at the work spot has to be made by the contractor. He has to arrange all lighting equipment such as power cable, hand lamps. The contractor has to take prior approval for taking electrical

power supply. The contractor shall keep hand lamps of 24Volt for confined space and sufficient quantity of 240 Volt and halogen lamp for other area ensuring safety at work place.

- (v) Pin sockets of IS standards should be used for all electrical connections. For any accident take place & any damage to the equipment and/or injury to human due to carelessness in loose connection, contractors will be held responsible & liable for any recovery/actions.

19.0 Clarification of Bidding Documents:

If any Bidder requires any further information or clarification in the Bidding Documents, may notify the Company before one week of due date of submission of online Bid, in writing or by E-mail at the GIPCL's mailing address nksingh@gipcl.com as indicated in the 'Invitation to Bids'. The GIPCL's response (including an explanation of the query) will be sent in writing or by E-mail to all prospective Bidders who have received the Bidding Documents.

20.0 Time Schedule:

The basic considerations and the essence of the 'Contract' shall be the strict adherence to the time schedule for performing the specified 'Works'.

21.0 Understanding And Clarification On Documents And Specification:

The Bidder is required to carefully examine the specifications and documents, all the conditions and matters work wise & cost wise. If any Bidder finds any discrepancies or omissions in the specifications and documents or is in doubt for any meaning of any part, he shall request in writing for an interpretation/clarification to the GIPCL or during site visit.

All such interpretations and clarifications shall form a part of the Bid documents.

22.0 Payments:

All the payments against the work order shall be in Indian currency and payable through cheque/RTGS only.

23.0 Points To Be Considered During Quoting Online Price Bid:

- a. The schedule of rates shall be read in conjunction with Instructions to Bidders, General conditions of contract, Special conditions of contract and Technical specifications.
- b. The payment shall be made as per actual work carried out as per the rates of work order.
- c. The method of measurement of completed work for payment shall be in accordance with the method of measurement specified in the tender.

- d. No separate amount shall be payable for use of auxiliary equipment incidental to or in day to day operation in the course of fulfillment of contractual obligation of the vendor.

Note: Interested bidders are requested to submit the online tender at least two days in advance from the due date set for on line submission of bid in order to avoid non participation of e-tender due to probable technical problem in e-tender system.

24.0 Quantities:

Bidders to provide quantity of required chemicals for two years to maintain specified result as indicated in Annexure-I of Section-D with ppm of product offered. Payment will be made, based on Supply of chemicals & actual work done as certified by Engineer-in-charge of GIPCL.

After commencement of the work, GIPCL, for any reason may not require to be carried out the whole/part of the work as specified in the tender, the ENGINEER or EXECUTIVE -in-charge shall inform the fact for thereof to the CONTRACTOR and contractor shall have no claim for any payment or compensation whatsoever on account of any profit or advantage which he might have derived from the execution of the work in full but which he did not derive in consequence of the full amount of the work not having been carried out nor shall he have any claim for compensation by reason of any change having been made in the original specifications and instructions which shall involve any curtailment of the work as originally contemplated.

SECTION-C

GENERAL CONDITIONS OF CONTRACT

1) Contract Security Deposit/ Performance Bank Guarantee:

As a Contract Security /Performance Bank Guarantee, the successful Bidder, to whom the work is awarded, shall be required to furnish a Performance Bank Guarantee (PBG)/Contract security deposit in favor of Gujarat Industries Power Company Limited of an equivalent amount of ten percent (**10%**) of the "Annual Contract Price" excluding taxes and duties" from any Nationalized Bank including Public Sector bank-IDBI Ltd or AXIS Bank, HDFC Bank, ICICI Bank or Kotak Mahindra bank, Ratnakar Bank, IndusInd Bank, Karur Vysya Bank, DCB Bank, ING Vyasya Bank or The Kalupur Commercial Co-operative Bank Ltd, Rajkot Nagrik Sahakari Bank Ltd, The Ahmadabad Mercantile Co-operative bank Ltd, The Mehsana Urban Co-operative Bank Ltd, Nutan Nagrik Sahakari Bank Ltd in the format attached in **SECTION-F**, and it shall guarantee the faithful performance of the 'Contract' in accordance with the terms and conditions specified in these documents and specifications. Contract security deposit / PBG shall be submitted strictly within twenty one days from the date of Lol or work order, whichever is earlier. The security deposit / PBG shall be valid up to retention period of four months from the contract completion date. The Guarantee amount shall be payable to the Company in Bidder's home currency without any condition whatsoever.

GIPCL reserves the right to forfeit Performance Bank Guarantee (PBG) / Contract Security deposit,

The Performance Bank Guarantee (initial security deposit) & retention money (Cash Security deposit) will be returned to the Vendor/Contractor without any interest at the end of the 'Retention Period' after completion of contract and on fulfilling contractual obligations throughout the retention period. However, any delay in submission of initial SD will result in equivalent late release of entire SD after guarantee period.

Bid security / EMD should be refunded to the successful bidder on receipt of Performance Security.

2) Recovery Clause:

- (i) In case of any damage of equipment/machinery due to negligence of contractor or any other reasons attributed to contractor the decision of Engineer-in-charge regarding the amount of recovery shall be final and binding to Contractor subject to a maximum of 10% of contract value. Recovery will be affected from the monthly bills and or retention money/ security deposit.
- (ii) If the contractor fails to execute the work as per directions of Engineer (I/c) / Executive within the time frame given in work order and as per day to day instructions by Engineer-in-charge / Executive, GIPCL shall get the work done by third party at the risk & cost of the contractor with 15% additional overhead charges of GIPCL.

3) Deductions From Contract Price:

All costs, charges or expenses that GIPCL may have paid, for which, under the contract the contractor is liable, shall be recovered by the GIPCL. The contractor shall pay all such claims within 15 days of claim failing which the same shall be deducted from the bills of contractor.

4) Termination Of Contract By GIPCL:

Contractor shall be responsible to complete the jobs within agreed time schedule and in case contractor fail to complete the job, GIPCL shall recover from his bill, Security Deposit and / or whatsoever for expenses incurred to complete the job with additional 10% overhead charges.

In case if contractor's services are not found satisfactory with respect to mobilization, time bound completion of work, workmanship & safety (OHSAS policy of GIPCL) etc then GIPCL has right to terminate the contract at any time by giving you 15 days advance notice without assigning any reason and will make the alternate arrangement at the risk & cost of contractor.

GIPCL may terminate the contract after due recoveries of pending jobs/damages after giving 15 days advance notice to the contractor if any of the following events occur:

- i. Contractor is adjudged as insolvent.
- ii. Contractor has abandoned the contract.
- iii. Contractor fails to proceed with the work with due diligence as per requirements of the contract.
- iv. Contractor has neglected or failed persistently to observe or perform any of the acts, matters or things, which as per the contract are to be observed and performed by the contractor.
- v. Contractor repetitively violating the safety norms for more than three incidents.
- vi. Any major contradiction of applicable labour laws.
- vii. Any major deviations from contractual terms and conditions including quality of job.
- viii. GIPCL reserves the right to terminate the contract without giving any reason whatsoever and forfeit the PBG.

5) Failure & Termination:

If the CONTRACTOR after receipt of written notice from the GIPCL/ ENGINEER requiring compliance with such further drawing and / or the GIPCL/ ENGINEER instruction fails within seven days to comply with same, the GIPCL/ ENGINEER may employ other agencies to execute any such work whatsoever as may be necessary to give effect there to and all cost incurred in connection there with shall be recoverable from the CONTRACTOR by the GIPCL owner certificate by the GIPCL / ENGINEER as a debit or may be deducted by him from any money due over to become due the CONTRACTOR.

If the contractor fails to execute the work or fails to mobilize the resources and equipments as per directions of GIPCL / ENGINEER within the time frame given and/or violating the GIPCL's safety rules & regulations, ENGINEER/ GIPCL shall get the work done by third party at the risk & cost of the CONTRACTOR with additional 10% overhead charges of GIPCL and all costs incurred in connection therewith shall be recoverable from the CONTRACTOR by the GIPCL /ENGINEER as a debt or may be deducted by him from any money due or to become due to the CONTRACTOR.

6) Settlement Of Disputes:

- a. Any disputes or difference of opinion between parties arising out of the contract to the extent possible shall be settled amicably between the parties. If amicable settlement cannot be reached all the disputed issues shall be resolved through arbitration before a Sole Arbitrator appointed by Managing Director, GIPCL according to the provisions of The Arbitration & Conciliation Act, 1996 as amended from time to time. The place of arbitration shall be at Surat or any other place within state of Gujarat.
- b. Work under the contract shall be continued by the contractor during arbitration proceedings unless GIPCL shall order suspension thereof or any part thereof in writing or unless the matter in such work cannot possibly be continued unless the decision of the Arbitration proceedings is obtained.

7) Interpretation Of Clause:

In case of disputes as regards interpretation of any of the clauses or specification, the decision of Head Of Management (HOM) - GIPCL will be final and binding on the contractor.

8) Employee's Compensation Insurance:

Contractor shall take all risk Insurance Policy to cover all his workmen/employees, staff applicable under the Employee Compensation Act 1923 or any amendment thereof as also insurance cover for third party liability. The contractor shall keep the GIPCL indemnified from all liabilities arising out of his action in pursuance of this contract. The E. C. Policy should be obtained from Surat Jurisdiction for SLPP shall be assigned to GIPCL. EC policy should cover the specified contract period.

Contractor shall also obtain additional off-duty coverage insurance policy for all his workers.

9) **Statutory Requirements:**

a. Compliance Of Labor Laws:

The contractor shall at his own cost comply with the provision of labor laws, rules, orders and notifications whether central or state or local as applicable to him or to this contract from time to time. These Acts/Rules include without limitation of the followings.

1. Contractor shall be solely responsible and shall fully comply with all the provisions of all the labor laws applicable such as the Minimum Wages Act, 1948, Contract Labor (Regulation & Abolition) Act 1970, Factories Act, 1948, Payment of Bonus Act 1965, Employees Provident Fund and Miscellaneous Provision Act 1952, Industrial Dispute Act 1947, Workmen Compensation Act 1923, Payment of Gratuity 1972, Interstate Migrant Workmen Act 1979, Equal Remuneration Act with Rules, Order and Notifications issued/made there under from time to time.

All employees of the Contractor shall be employee of the Contractor.
 - 2.2 The contractor shall have a valid license obtained from Licensing Authority under the Contract Labor (Regulation & Abolition) Act-1970 at the time of execution of the contract covering all his employees working at SLPP site and furnish the same failing which GIPCL may terminate the contract at its sole discretion.
 - 2.3 The Contractor shall at the time of execution of the contract have a EPF Code Number obtained from the Authorities concerned under the Employees Provident & Miscellaneous Provisions Act, 1972 and remit contributions in respect of the employees employed by him at SLPP Site to the P.F office concerned every month failing which GIPCL will recover from the outstanding payment to the contractor from GIPCL.PF code of Gujarat region should be taken.
 - 2.4 The Contractor shall maintain all records/registers required to be maintained by him under various labor laws mentioned above and produce the same before the Statutory Authorities whenever required.
 - 2.5 The Contractor shall also submit periodical reports / returns to the various statutory authorities such as the Contract Labour (Regulation & Abolition) Act-1970, Employees Provident Fund Act etc. Under intimation to HR&Admn.Dept.
 - 2.6 The Contractor shall not pay less than the Minimum Wages notified by the Government from time to time to his employees of corresponding categories.

- 2.7 The Contractor shall be responsible for payment of overtime wages to his workmen, if any, in case they are required to work beyond the prescribed hours under law as per applicable rates.
- 2.8 The contractor shall take Workmen Compensation Insurance Policy for all his employees working at SLPP. The contractor shall indemnify the company against any liability due to any work injury or accident to any of its employees.
- 2.9 The Contractor shall in the event any of his workmen / employee sustains any injury or disablement due to an accident arising out of and in the course of his employment, provide necessary medical treatment and pay compensation as applicable, required under the Workmen's Compensation Act, 1923.
- 2.10 If any of the persons engaged by the Contractor misbehave with any of the officials or the Company or commit any misconduct with regard to the property of the Company or suffer from any serious communicable disease, the Contractor shall replace them immediately.
- 2.11 The Contractor shall not engage / employ persons below the age of 18 years. Employment of women shall be strictly according to applicable laws.
- 2.12 GIPCL will have right to deduct and disburse the claims of the individual / parties being a principal employer on any account whatsoever in relation to their employment with the contractor. The Security deposit will be released to the contractor at the end of the contractual tenure subject to an undertaking by the contractor that in the event any of his workmen or the heirs of workmen puts up a claim for recovery of money due to him from the contractor before the appropriate authority under the I.D.Act 1947 or under any other labor laws or for compensation under the Workmen's Compensation Act, 1923 and the appropriate authority has given a direction for making payment the contractor will meet the same or indemnify GIPCL if in the event GIPCL pays it as Principal Employer.
- 2.13 The contractor shall make payment of wages to his employees on fixed date within the period specified under the applicable Law, in presence of representative of the company. He will submit a true copy of wage sheet, attendance register and P.F. remitted challans on monthly basis to HR&A dept. for verification and record.
- 2.14 The Contractor shall provide Safety items / kits to his employees such as safety shoes, goggles, ear plugs, hand gloves, safety belts etc., if any, required under the law.
- 2.15 The contractor shall conduct pre-induction and periodic medical checkup of his workmen as per applicable laws.
- 2.16 The contractor shall be solely responsible for any accident caused to his workers and should adhere to all rules / regulations as per labor laws of Government and other statutory laws as applicable.
- 2.17 The contractor should register himself under the Contract Labor Act, Employee Compensation Act and PF Act (Code no. to be mentioned) and submit the copy of registration certificate and should possess the same from the date of commencement of work, failing which the contract is liable to be cancelled. The E.C. Policy copy should be submitted to

the GIPCL before commencement of the work and Labor License should be obtained within one week from the date of issue of form-V. Contractor should apply for Form-V immediately after receipt of LOI. A copy of Labour License shall be submitted to GIPCL, HR & A Department.

- 2.18 Contractor shall have to insure his workmen /supervisors etc. under Group Insurance scheme.
- 2.19 The Contractor shall be responsible for compliance of all statutory rules, regulation, act enforced from time framed by the government such as Factory Act, Employee Compensation Act, payment of 'Wages Act', Minimum Wages Act', Provident Fund Act, All Labor Laws Act in respect of employees engaged by him for the work and shall have to maintain necessary records. In case any amount becomes due to be payable by him to his employees or to the Government under the above rules, regulation, Acts, GIPCL reserves the right to recover the same from the running bill of the contract.
- 2.20 Documentary evidence of deposit of PF paid shall have to be produced by the contractor along with the next bill.
- 2.21 Records as per the provisions of various statutory Acts will have to be maintained by the contractor and submitted as and when required.
- 2.22 All employees of contractor should maintain due discipline and respect local sentiments. GIPCL reserves the right to direct the contractor to remove any such person who does not comply with it.
- 2.23 The list is indicative in nature and not an exhaustive one. Any amendment/alteration/Notifications or addition to the existing Law or a new statute shall automatically and immediately become applicable.
- 2.24 **Annual Health Check up :-** As per statutory requirement, Contractor has inform workmen deployed at site for annual health check as per schedule prepared by HR&A department.

b. Legal Aspects:

1. Contractor shall maintain all register required under the Labour Laws and make the payment as per the Minimum Wages Act to the workers employed by him.
2. Contractor shall obtain requisite license to carry out this contract under the provisions of Contract Labour Act, 1970 and maintain necessary records and registers under the said Act.
3. Contractor shall submit a copy of each of the registration certificates with respect to Employees Provident Fund and Employee Compensation Act within one week time, from the date of award of this contract.
4. Contractor's employees, agent or sub-agent shall not smoke or light anything within the premises of the GIPCL and carry match box / lighter or any other explosive and /or inflammable material inside the plant.
5. Contractor shall abide by all the statutory rules and regulations like P.F, Labour Laws etc.
6. Contractor shall issue an appointment order to each casual labourer stating therein the nature of job to be performed by him and fix time for which the concerned labourers are likely to be deployed. Contractor shall also issue a temporary identity card specifying the period for which the labourer has been deployed.

7. Contractor is fully liable for the persons engaged by him for above work; however, GIPCL reserves the right to deduct any amount legally justified towards any liability not fulfilled.
8. Contractor shall indemnify GIPCL from any liabilities arising out of the employment of the manpower.
9. If the contractor fails to complete the allocated job within specified time frame, GIPCL shall get the work done by third party at the risk and cost of contractor.

10)Payment Of Wages:

Contractor shall be responsible for compliance of all statutory rules, regulation, act enforced from time framed by the government such as Factory Act, Employee Compensation Act, payment of 'Wages Act', Minimum Wages Act', Provident Fund Act, Payment of Bonus Act, Labor Law Act, maternity benefit act in respect of employees engaged by him for the work and shall have to maintain necessary records. In case any amount becomes due to be payable by him to his employees or to the Government under the above rules, regulation, Acts.

11)Accident To Workmen:

Contractor shall be fully responsible for injury or death of any of your or third party workmen due to any act omission / indiscretion on your part while undertaking the work and contractor shall fully abide by the statutory requirements of the employee's compensation act. GIPCL shall not be liable for any compensation due to accident, death or injury to any of contractor's workmen or any third party due to negligence, act or omission on your part.

12)Lighting:

Necessary illumination at works area will be provided by GIPCL.

13)Night/Sunday/Holiday Shift:

The contractor shall depute qualified and adequate resources in night shift/Sunday/holidays for any emergency job, which may come up at night/Sunday/holiday.

14)Safety Aspect:

Contractor shall observe all the safety and security rules and regulation of the GIPCL which are at present in force and which may come into force during the pendency of the contract. Any violation of any rules and regulations will entail immediate termination of the contract.

When contractor moves his lifting tools and tackles to the plant area, required test certificates as per the Factory Act 1948 and the state factories rules has to be submitted to safety Dept. Safety Dept. will check the certificates and if found okay, then only materials will be allowed to enter inside the plant. Material inward gate pass will be made only after certification from Safety

Dept. Security Dept. will inform to Safety Dept., as & when such tools and tackles brought at the gate for making entry in the maintenance site.

The contractor has to submit the list of required safety gears along with safety equipments available with him to safety Dept. Safety Dept. will check for quantity and quality of the safety gears and then allowed permission of work. Poor quality material will not be allowed to take inside the Plant. If quantity of required safety equipments is not satisfactory, contractor will not be allowed to carry out the work using such safety gears inside the Plant for the work.

15) General Safety Clauses :

1. The Contractor shall observe and comply, with regard to his workmen working at the SLPP site, the safety norms as per the safety operating standards.
2. The Contractor shall ensure that his workmen are informed and trained regarding the safety standards to be adopted while operating within the SLPP Plant & Mines premises and the Contractor shall brief them regarding the same and use of the Personal Protective Equipment ('PPE').
3. The Contractor shall issue safety shoes and safety helmet of IS standard to all his workmen immediately on execution of the work and the contractor shall ensure that his workmen wears the protective equipments at all times during the work operation. Contractor shall issue safety shoes every year Brand name for safety shoe & safety helmet shall be suggested by safety representative of SLPP site, Such as:-

Helmet:-

Sr.No.	Model	Company	Specification
01	Tough, Hat, HP- TH	Sure Safety	IS: 2925-1984, ANSI/ISEA Z89.1-2009
02	V - Gard	MSA	
03	PN 521 – Shelmet	Karam	

Safety Shoes:

Sr.No.	Model	Company	Specification
01	Acme Fabric Plast Co.	SSTEELE (strom) – Double Density	IS: 15298-2011
02	Acme Fabric Plast Co.	TRIMAX (Adjacent) – Double Density	
03	Worktoes Warren	Worktoes- Warren Plus	

4. Other safety gears like ear plug, dust mask, hand gloves, safety goggles, gum boots, full body safety uniform and belts, safety net etc. shall be issued and used as per the job requirements. Safety helmet shall be of YELLOW COLOUR ONLY. Contractor will procure safety shoes & safety helmet from a reputed company with at least 12 months' guarantee and shall produce the guarantee certificate and IS standard certificate to the safety department. Contractor should purchase safety shoes of reputed brands. Safety shoes will

- be issued every year. IS certificate and guarantee certificate must be obtained from the vendor and submitted to the Safety department. Safety shoes should be heat, water, oil and chemical resistant, having an anti-slippery sole of 15298- 2002 make.
5. It is the duty of contractor to ensure that his workmen are wearing required PPEs as per work requirement. Contractor should ensure that their workers are wearing Safety helmet, safety shoes, dust mask, goggles, ear plug etc. at all times when they are at work throughout the contract period. The contractor has to maintain the PPE issue registers with signature of workmen.
 6. Contractor will reissue these PPEs in case of damage or misplacement of the same. Replacement shall be made immediately.
 7. The contractor shall be responsible for providing first aid or emergency medical help and treatment to his workmen in the event of any accident or injury.
 8. If it is observed that contractor is not issuing required PPEs timely and that of required quality, GIPCL will issue the required PPEs to contract workers and back charge the same with 25% overhead charges of GIPCL.
 9. All lifting tools and tackles shall be duly certified by competent person in conformity with the statutory requirements and certificate in form no. 10 as per rule 60 of Gujarat Factories Rules, 1963 and section 29 of the Factories Act, 1948 shall be submitted every year before using such tools and tackles. In case of purchase of new lifting tools and tackles, form no. 10 as per the said rules shall be submitted before they are taken into use. All lifting tools and tackles shall be of reputed make having International manufacturing standard and shall be maintained in proper and workable condition.
 10. The Contractor shall nominate one Safety Officer with required qualification for supervising the daily job/ shutdown jobs for observing and maintaining the safety aspects at site. He is solely responsible for any safety measures during maintenance work. He has to ensure that all the workmen working at site are equipped with essential PPE's and proper safety arrangement is made at the SLPP site.
 11. After mobilization of any tools & tackles to site, which includes chain pulley blocks, D-shackles, wire ropes, winch machines, Mobile crane, Hydra etc. shall be offered for inspection with all above statutory test certificate before using at site for any work. They should use all tools and tackles only after certification by GIPCL representative/safety officer.
 12. When working at height, working on ceiling or roof covered with fragile materials, full body harness safety belt, ladders and crawling boards shall be used to prevent accident. Further, during working on height, contractor should arrange proper scaffolding of still pipes, safety net, full body safety belt, fall arrestor system etc. Advice and instructions of engineer in charge/ safety in charge shall be strictly complied with in this regard. All necessary safety precautions shall be taken by the contractor to prevent accident and personnel injuries while working on height.
 13. Flash back arrestors made of reputed manufacturer shall be provided on cutting torch, on DA cylinders and on O2 cylinder. Cylinder caps also required for handling the cylinders at the work at height area. Gas cylinders shall be transferred through gas cylinder trolley only with cylinder cap and stored up right (vertical) position only. All gas cylinders shall be hydro tested / certified

- as per gas cylinder rules 2004. Gas cylinders shall be stored, handled as per gas cylinder rules 2004.
14. All vehicles shall be operated by licensed drivers only. All vehicles' PUC to be tested as per Government approved RTO guidelines. All Vehicles must be parked in Parking space designated by GIPCL. If any vehicle is found inside the plant premises other than the parking area such vehicles shall be handed over to Security dept. and their entry shall be cancelled for movement inside the plant premises with immediate effect.
 15. All electrical equipment shall be in good condition and free from any defect. Electrical tools & equipments i.e. welding machine, grinding and drill machine etc. may be checked by the electrical engineer of the contractors regularly, every six month at least and report to be submitted to concerned HOD and safety depts.
 16. During hot work, contractor will use fire curtains like asbestos sheets or fire blankets to prevent falling and spreading of sparks and hot material on and around the work area. Contractor will procure and use such items. ELCB / RCCB shall be provided with rating of 9-30 milli ampere on welding machine and all portable power tools.
 17. The contractor shall fill – up Incident notification form (S-I), Incident Investigation form (S-II) and near miss report within time limit as specified in forms, if any accident, Incident, near miss occurred while working at SLPP site.
 18. Major AMC / ARC contractor (Where the man power strength is more than 50 and above) should appoint / nominate one qualified safety officer and he shall be responsible for addressing all the safety related aspects of execution of contract jobs and he will in close co ordination with safety officer of SLPP & attend all safety related meeting such as safety committee, on job safety training etc. Where the contractual man power is less than 50, the site in charge of the contractor will act as a safety officer and he will perform all the duties of safety officer as mentioned above.
 19. No loose connection / joints allowed in electrical cables during performance of any kind of job.
 20. Safety shoes to be issued to female employees also.
 21. All the vehicles shall be fit as per RTO guidelines and valid fitness certificate is required as per RTO guidelines.
 22. The Contractor's nominated safety officer shall be imparted regular on-job safety training like tool-box talk etc. and submit a record of such training in safety dept, respective dept and HR&A dept.
 23. The Contractor shall comply all the new requirements related with safety as informed by the HOD / Safety department from time to time.
 24. Penalty to be imposed for Violation of safety norms is proposed as follows:-
The Contractor & Contract workmen shall strictly adhere to Safety standards / Guidelines as per practices. The list provided below is an indicative list to explain the principles behind safety practice. If the contract workmen fail to comply with safety standards as per category A, B & C below, penalty shall be levied on the contractor as per the table mentioned below:

Category	Classification	Examples / Cases	Penalty
A	PPEs Related	Working without helmet, shoes, safety belt, gloves etc.	Rs. 100 /- per instant.
B	WI Related	<p>Failure to adhere to HSE guidelines/plans, careless attitude in material handling,</p> <p>Machine being used with damaged machine guard, unsafe electrical work - workout plug top/improper electrical joints/cables lying on ground, electrical equipment working without proper earthling, machine being used without machine guard, Welding machine without ELCB / RCCB of proper rating, Gas cylinder without test certificate, Cylinder cap, NRV / Flash back arrester, Cylinder trolley etc.</p> <p>Unsafe working practices at height more than 3 meters</p> <p>Working without permit or non-compliance with permit conditions like hot work, height work etc. as applicable, lifting tools and tackles being used without third party inspection certificates in form no. 9/10 as per Factory Act – 1948 etc..</p>	<ul style="list-style-type: none"> Rs. 500 /- per instant. After three incidence, Per incidence Rs. 2950/- Continuous unsafe acts will disqualify the contractor from further participation in tender of GIPCL.
C	Unsafe Practices	Breach of safe practices by a particular person repeatedly for three times.	Suspend the entry gate pass for one week. After two suspensions his gate pass will be cancelled.

Penalty so levied against the contractors and company employees will be used during the observation of National Safety Day.

The contractor, workmen following good safety practices in their work area continuously will be rewarded / honored on National safety day.

16)Rejection Of Work:

If, as a result of inspection, examination or testing, the GIPCL's Representative/Engineer decides that any materials, work or workmanship is defective or otherwise not in accordance with the Contract, the GIPCL/Engineer/ GIPCL's Representative may reject such plant, materials, work or workmanship and shall notify the CONTRACTOR promptly, stating his reasons. The CONTRACTOR shall then promptly make good the defect and ensure that the rejected item complies with the Contract. If Contractor failed to rectify the rejected work or workmanship, GIPCL/Engineer reserves the right to deduct or withhold amount against rejected work or Workmanship. CONTRACTOR shall not entitle for any claim or release of hold payment until rectify the defect up to satisfactory of GIPCL. If Contractor failed to rectify any such defective work or workmanship, GIPCL reserve the right to rectify at risk and cost of the CONTRACTOR and deducted by the GIPCL from any amount due, or to become due, to the CONTRACTOR's dues.

If the GIPCL/Engineer/GIPCL's Representative requires such materials, work or workmanship to be retested, the tests shall be repeated under the same terms and conditions. If such rejection and retesting cause the GIPCL additional costs for the traveling and lodging costs of GIPCL/Engineer's personal for attending the retest, such costs shall be recoverable from the CONTRACTOR by the GIPCL and may be deducted by the GIPCL from any amount due, or to become due, to the CONTRACTOR.

17)General Terms And Conditions:

- a. All tools & tackles, labours, equipments, vehicles, tractors, etc... to execute the contract are in the scope of the contractor. The contractor should ensure that tools& equipments are in healthy condition.
- b. The decision of the Engineer-in-charge shall be final and binding on the contractor for defining the terms and condition included in this contract.
- c. If the work is not found satisfactory, Engineer-in-charge reserves the right to take suitable action.
- d. Contractor shall depute Location/Package wise full time independent experienced site-in-charge and independent site supervisors at site. They shall co-ordinate with GIPCL engineer and shall bear overall responsibility of contract including joint measurement, billing etc. Such person shall function from site office of contractor at SLPP.
- e. Contractor shall also nominate one safety supervisor at site and shall submit nomination of safety supervisor in writing before commencement of contract. Safety supervisor shall arrange small safety talk on every day morning or whenever required with all workers working under this contract. He shall coordinate with concern department's Engineer-in-charge on daily basis and

- report daily observations, tool-box talk records etc. The work shall not be allowed without deploying safety supervisor and a plenty equal to Rs 1000/- per day absent of safety supervisor shall be levied from contractor.
- f. Contractor shall strictly follow the existing work permit system of the GIPCL and any future revisions.
 - g. The contractor has to take EC insurance policy for their workmen. The contractor has to submit labor license and PF account number to the Engineer-in-charge before start the work.
 - h. The contractor has to do the job timely. GIPCL shall not compromise in delay. In case of delay of work without any valid reason, the GIPCL reserves the rights to carry out the work by deploying other agencies at the risk & cost of contractor with additional 10% overhead charges.
 - i. Contractor shall mobilize the resources as per need within the period of four hours. If the contractor fails to mobilize sufficient resources to complete the job in time, GIPCL will execute the job through other agency at the risk and cost of the contractor with additional 10% overhead charges.
 - j. Contractor should mobilize all resources for efficient & smooth execution of contract within seven days from the date of issue of Letter of Intent/Work Order.
 - k. The prices / item rates quoted shall remain firm till completion of the contract and any agreed extensions thereafter and shall not be subject to any escalation, idle charges for labor, machinery, overhead expenses etc... due to any reason whatsoever. No price escalation / idle charges shall be entertained due to delay in work on unavailability of work front, non-issue of work permit, holding of work permit for any reason, unavailability of contractor's supervisor, unavailability of contractor's safety supervisor, violation of safety rules, unsafe act by any of contractor's worker, negligence & ignorance of safety & quality instructions of GIPCL Engineer-in-charge or any other reason whatsoever.
 - l. Contractor must fulfill all the safety regulations and to take safety measures to avoid hazards. Contractor shall arrange all standard adequate healthy safety PPEs like but not limited to approved quality safety shoes& safety helmets, standard dust masks, safety goggles, etc... as required and shall use exclusively under this contract for all the time during working at specified locations failing which, the Engineer-in-charge may hold the work and will take necessary action including penalty as decided. If the contractor repeatedly violates safety rules/regulations (more than three successive incidents), Engineer-in-charge may take necessary action against the contractor, including appropriate financial penalty) and/or termination of contract.
 - m. One or more jobs may be required to be done simultaneously and contractor shall mobilize additional resources accordingly.
 - n. Timely completion of all jobs and works shall be the essence of this Contract. Contractor should closely monitor each activities and complete the jobs as per the time given by and under the supervision of the Engineer-In-charge and shall ensure that sufficient manpower is deployed for the same.
 - o. The contractor has to complete the works as per the planning schedule and their respective supervisor has to interact with Engineer In-Charge for PTW (Permit to work), work instruction, Return of permit.

- p. The contractor has to submit daily reports showing work carried out with details of available manpower, tractors etc.
- q. Any job other than the listed jobs in work order shall be executed by the contractor on instruction from GIPCL and payment shall be made to the contractor on respective item rate only.
- r. The Government of India has enacted the Micro, Small and Medium Enterprises Development Act, 2006 (the "Act") and the Act has come into force from October 2, 2006. The Bidder shall confirm whether your organization is registered under the Micro, Small and Medium Enterprises Development Act, 2006. If your organization is registered under the Act, please specify the category i.e., Micro Enterprise, Small Enterprise or Medium Enterprise under which it is registered and kindly attach a copy of your registration certificate.
- s. The Bidder shall provide details of registration along with copy of the registration certificate issued by the District Industries Centre/Department of Industries, etc of the respective State Government. It is to be noted that large scale industries and trading firms have been excluded from the purview of the Act.
- t. GIPCL is an ISO 9001, ISO 14001, OHSAS 18001 & ISO 50001:2011 (EnMS) certified company, and GIPCL gives extreme importance to maintain these global standards. Contractor shall be required to observe these standards while working with GIPCL. Contractor should ensure that his workmen/labour work in accordance with them.

18) Contractor's Supervision:

The contractor shall, during the whole time the work is in progress, employ a qualified experienced site-in-charge of the works with adequate experience in handing of jobs of this nature and with the prior approval of the GIPCL / ENGINEER. Such in-charge shall be constantly in attendance at the site during working hours. During CONTRACTOR'S supervisory engineer absence during working hours, if unavoidable, and also beyond working hours, when it may be necessary to give directions, orders may be given by the ENGINEER / GIPCL and shall be received and obeyed by the CONTRACTOR'S superintendent or Foreman who may have charge of the particular part of the work in reference to which orders are given. If requested to do so, the ENGINEER /GIPCL shall confirm such orders in writing. Any directions, instructions or notices given by the ENGINEER / GIPCL to him, shall be deemed to have been given to the CONTRACTOR. The representative of the CONTRACTOR shall have all necessary powers to receive materials from the GIPCL, issue valid receipts for the same, engage labour or purchase materials and proceed with the work as required for speedy execution.

None of the CONTRACTOR'S Superintendents, engineers, supervisors or labour should be withdrawn from the work without due notice being given to the GIPCL / ENGINEER; further no such withdrawals shall be made if in the opinion of the GIPCL / ENGINEER such withdrawals will jeopardize the required pace of progress / successful completion of the work.

The CONTRACTOR shall employ in or about execution of the work only such persons as area careful, skilled and experienced in their respective trades, and the GIPCL shall be at liberty to object to and require the CONTRACTOR to remove any person employed by the CONTRACTOR in or about execution of works who in the opinion of the ENGINEER misconducts himself or is incompetent or negligent in the proper performance of his duties and all such persons shall not again be employed upon the works without the prior permission of the GIPCL.

Neither the CONTRACTOR and the PURCHASER nor the ENGINEER shall hire or employ any employee of the other party except by mutual consent.

19) Contractor To Remove All Offensive Matter Immediately And Clean-Up:

All loose materials, wastage, packing materials, cut pieces or other matter of an offensive nature shall not be deposited on the surface, but shall at once be carted away by the CONTRACTOR to some pit or place provided by him away from the site of work and approved by local authorities.

As a part of the work included in this contract, the CONTRACTOR shall completely remove and satisfactorily dispose of all temporary works to the extent directed. He shall tear down and dispose of all temporary works, shall remove or grade, to the extent directed, all plant and equipment, shall satisfactorily dispose off all rubbish resulting from the operations under this contract and shall do all work necessary to restore the territory embraced within the site of his operations to at least as good order and conditions as at the beginning of the work under this contract.

20) Facilities To be Provided By GIPCL:

A. The Company shall provide the following facilities to the Contractor at the site:

- a. Electricity & water at nearest available one point. Further distribution to be done by contractor at their cost.
- b. Quarter(s) for supervisor/ engineers on chargeable basis in GIPCL's township at discretion of GIPCL if available.
- c. Workshop facility as available at site only. However contractor may visit the workshop to ensure the existing facility. For the facilities other than available, contractor has to carry out the job outside at their own cost.
- d. Site office shall be provided at site.
- e. First aid facilities as available on chargeable basis.

Apart from the above, no other facilities shall be provided by GIPCL.

B. GIPCL shall also conduct an orientation program appraising the workmen regarding the safety norms and measures to be observed during work operations at the plant site.

21)Work Measurement/Certification:

- a. The work to be performed being a specialized nature, the contractor should be fully conversant with modern practices and should be able to carry out works independently of large thermal power plant. The contractor shall therefore be required to engage qualified/ experienced personnel to undertake the work as per specifications and requirement.
- b. Contractor should maintain one computer with printer for keeping daily records and maintain the data.
- c. All the work measurements shall be jointly recorded in measurement sheet / register / relevant documents by Contractor/ Authorize representative the contractor and the Engineer in – charge. The measurement shall clearly written including date of measurement, location, reference to drawings, if any, and jointly signed.
- d. The Contractor shall be required to furnish satisfactory job completion report to GIPCL. The submission of report should be on daily basis, the monthly bill payment shall be released based on the certified reports of the works.
- e. Inspection of work will be done by Engineer in Charge or his authorized representative. If the work is not found satisfactory engineer in charge reserves the right to take suitable action and shall be binding to the contractor.

22)Public Holidays:

The Contractor shall be responsible for giving benefit to all his employees, employed in whatsoever capacity, 09 Public/Paid holidays and the same shall be notified in advance and due communication thereof shall be made to the Management.

23)Benefit Payable In Case Of Accident Occurring Outside Premises Or Beyond The Course Of Employment:

The Contractor shall provide an insurance coverage (Medical + Death Benefit) for sum of Rs. 01/-Lakh to all his workmen/labour deployed at GIPCL-SLPP for the accident taking place anywhere outside the Company premises or at any place when the workman is not in course of his employment.

24)Force Majeure:

The performance of the obligations herein contemplated may be suspended without incurring the penalty in the event of the subsistence of Force Majeure conditions.

If a Force Majeure situation arises, the affected Party shall promptly notify the other Party in writing of such conditions and the performance shall be suspended as per mutual agreement.

For the purposes of this clause, 'Force Majeure' means an event beyond the control of the Party and not foreseeable by the Party and shall include events of floods, explosions, riots, wars, hurricane, epidemics, any other Act of God, quarantine restrictions, terrorism, government actions and provided always that such acts result in the impossibility of the further performance of the contract.

25) Indemnity:

The Contractor shall indemnify and keep harmless GIPCL from and against all actions, proceedings, claims, demands, losses, costs, damages and expenses whatsoever which may be brought against or suffered by GIPCL which it may sustain, pay or incur as a result of or in connection with the performance/ purported performance/ non-performance of the contract by the Contractor.

In case, in any litigation pertaining to labour employed through contractor if any direction or order is issued by court at any point of time the contractor shall comply with and implement such direction or order whether passed at the time of award of contract or during the pendency of contract. Further, the Contractor shall indemnify the GIPCL against all consequences arising and affecting GIPCL owing to the compliance of the orders by the Contractor.

26) Governing Law And Jurisdiction

This tender document and contract shall be governed by the laws of India and the Courts at Surat shall have jurisdiction regarding the same.

27) Where any portion of the General Condition of Contract is repugnant to or at variance with any provisions of the Special Condition of Contract, then unless a different intention appears, the provision of the Special Conditions of Contract shall prevail to the extent of such repugnancy of variance.

SECTION-D

SPECIAL CONDITIONS OF CONTRACT

1. Detail Scope of Work:

The detail scope of work and technical specifications for GIPCL-SLPP is mentioned in Annexure-I.

1.1 Failure During Emergency:

During any emergencies, contractor shall have to carry out the work by deploying additional force within four hour notice period failing which GIPCL reserves the right to carry out this work by engaging other party. The expenditure occurred due to such situations, the Contractor will be held responsible & the same will be recovered from the Contractor's monthly bill / any other pending bills along with 15% overhead charges. For repetitive failure of such work for more than two incidents, GIPCL reserve the right to terminate the entire contract by forfeiting all pending dues, Security Deposit & other retention money, if any, after giving 15 days notice to the contractor & this will be binding to the contractor.

1.2 SPILLAGE OF MATERIAL

During loading and unloading and storage at site, any materials or chemicals spillage or damage of material shall be borne by the Contractor.

1.3 DISPOSAL OF MATERIAL

Empty container or Bags need to be shifted to defined location is in GIPCL scope & Empty containers will not return to the contractor.

1.4 Scope Of Contractor

1. All tools & tackles, tractors, required vehicles to execute the contract will be in the scope of the contractor. The contractor should ensure for healthiness/working conditions of tools, tackles & vehicles.
2. All consumable items like cloth, cotton waste, kerosene, gas, diesel, lubricants, etc will be in the scope of the contractor.
3. All safety/PPEs required during work at site are to be arranged by the contractor.
4. The Contractor shall have to provide necessary facilities including accommodation for their labor at their own cost.
5. The contractor has to arrange Hydra & tractor with trolleys for lifting/shifting the materials of their own. GIPCL will provide the services if available on chargeable basis.
6. Contractor has to depute their full time experienced overall site-in-charge & independent Location/Package wise supervisors for work execution as per specification and for day to day work planning & coordination with respective department's Engineer-in-charge, to obtain day to day Location/Package wise work permits, to get daily location wise work

supervision, to record Location/Package wise joint work done reports/measurements/trip certification, to prepare Location/Package wise separate bills, to prepare & apply Location/Package wise manpower gate pass, to maintain Location/Package wise statutory & legal compliance records, etc...

1.5 To Remedy Defective Work:

If the work or any portion thereof shall be damaged in any way excepting by the acts of the GIPCL, or if defects not readily detected by proper inspection shall develop before the final completion and acceptance of the whole work, the CONTRACTOR shall forthwith make good, without compensation, such damage or defects in a manner satisfactory to the ENGINEER / GIPCL. In no case shall defective or imperfect work be retained even if contractor followed all technical specifications. GIPCL will not compromise for quality of materials, works & workmanship.

The CONTRACTOR shall remain liable under the provisions of this clause notwithstanding the passing by the GIPCL of any certificate, final or otherwise or the passing of any accounts.

1.6 Daily Diary And Progress Report:

A daily diary register will be kept in the ENGINEER'S office. The CONTRACTOR will supply all detailed information every day at 9:00 hours for the day preceding and the diary will be jointly signed by the ENGINEER and the CONTRACTOR'S representatives, every day in token of its correctness. A works instruction book, serially numbered will also be kept in the ENGINEER'S office and all day to day instructions will be given in that book. The CONTRACTOR'S representative shall report every day to see these instructions and sign them at the bottom in token of his having seen them.

The CONTRACTOR shall supply all information regarding procurement of materials and progress of work, as is required by the ENGINEER for compiling the weekly progress reports. This information shall be supplied by 9:00 hours on every Monday, for the preceding week.

2. Price & Rates:

The rates quoted by the Bidder in the online Price Bid shall be inclusive of Supply of Chemicals, cost of all labor, all man-power deputation charges, consumables, Rent of equipments, pumps and their maintenance charges, all man power, food & accommodation of workers, packing & forwarding, transportation of material up to site (FOR Site), storage and handling at site, safety and statutory compliance, mobilization and de-mobilization, supervision, cost of safety supervisor, shifting, transportation, loading, unloading, equipment/chemicals, all tools & tackles, safety equipments & PPEs, Royalties, Rents, Stamp Duties, all the Central or State Government or Local body or Municipal Taxes or Duties, Turn over tax, Work contract tax, and / or any other duties / tax levied by the Central, State Government or other Public

bodies etc...and such other costs that are not specifically mentioned herein but will be incurred by the contractor for the satisfactory and timely completion of the work.

The quoted rates shall be deemed to include for everything mentioned in the specification, all leads & lifts, contractor's overheads & profits for due performance of the work under this contract and such other costs that are not specifically mentioned herein but will be incurred by the contractor for the satisfactory and timely completion of the work. The rates shall also include cost for mobilization / demobilization of manpower, equipments, materials, etc...

The rates shall be firm for entire contract period and also during extension, if required and shall not be subject to any escalation in prices, idle charges for labor, machinery, overhead expenses etc. No price escalation / idle charges shall be due to any reason whatsoever.

The prices / item rates quoted by Bidder shall remain firm till completion of the contract period and any agreed extensions thereafter and shall not be subject to any other escalation, idle charges for labor, machinery, overhead expenses etc. No price escalation / idle charges shall be payable due to delay in work by contractor or due to non-availability of work front by GIPCL or any reason whatsoever.

The price/rate quoted by CONTRACTOR shall be considering mobilization of all required manpower, tools & tackles, materials, equipment for timely and satisfactory completion of all scope of work.

The value and/or quantum of work may be increased or decreased depending upon day to day requirement. However, item rates remains unchanged and the payment shall be made as per the actual quantity executed as informed & certified by GIPCL representatives.

3. **Contract Period:**

- 3.1 The contract will be for a period of **Two Years** from the date of actual commencement of operation of the contract as stated in the Work Order ('Contract Period').
- 3.2 GIPCL reserves the right to extend the Contract Period up to Three months on the same rates and terms and conditions without any price escalation and entering into any new contract.
- 3.3 The said Contract Period can be extended if mutually agreed upon by both the parties up to **Twelve Months** and in such a case a revised work order shall be issued at the same rates and terms & condition or at negotiated rates acceptable by both parties i.e. the Company & the Contractor.
- 3.4 Mobilization period will be within Fifteen days from the date of issue of LOI or Work Order whichever earlier.

4. **Terms Of Payment:**

A. **Conditions of Payment:**

The contractor shall supply the chemicals to GIPCL-SLPP plants as per the requirements and based on that the MRR (Materials Receipt Report) will be prepared and inspection of the chemicals will be carried out by C&L Department. On receipt of MRR inspected by C&L Department, the invoice complete in all respects and with all the said documents, the payment in respect of the same shall be made within 21 days of such receipt of a complete invoice as per the following terms of payment:

- (i) 100% of RA bill along with 100% taxes shall be released against the work executed duly certified by GIPCL. Income Tax (IT) will be deducted at source from quarterly bills as per the rules in force.
 - Invoice of dispatched chemicals.
 - Dispatched chemicals test certificates by contractors Laboratory and verified in GIPCL Laboratory, by testing at GIPCL laboratory.
 - Copy of last quarter statutory compliance like labour license, wages payment register, EC Policy, PF paid Challan with ECR, etc.
 - Satisfactory work certificates, certified by GIPCL engineer-in-charge.
 - For first quarter chemicals supply bill will be released after submission of Equipments gate pass like, ORP meter, dosing pumps, and installation of corrosion racks with stand and compliance of security deposit.
 - Last quarter chemicals supply bill will be released after submission of Notarized Indemnity Bond as per Performa, No claim - No arbitration certificate (Format-3) and statutory compliance (register, EC Policy, PF paid Challan with ECR, etc.) for period up to end of contract period.
- (ii) Security deposit at 10% of annual contract value excluding taxes and duties shall be submitted as per clause no.: 1 of Section-C. Security deposit will be returned to the Contractor without any interest after retention period of three months from actual contract completion date as certified by Engineer-in-charge.
- (iii) GST shall be paid along with bills after fulfillment of following terms.
 - (a) Submission of copy of GST registration certificate (to be furnished only once).
 - (b) Citing the GST Registration no. And the date of issue of registration certificate on invoices.
 - (c) Claim of GST amount with percentage (%) separately shown on the invoices.
 - (d) The contractor shall be required to submit the proof of payment of GST of previous month/quarter, as may be applicable as & when demanded by GIPCL/Owner/company.
 - (e) The Bidder shall inform the GIPCL in the event of its registration certificate is cancelled or discontinued for whatsoever reason.
- (iv) At the time of submission of the first Quarterly Bill, the Contractor shall submit a certificate from Engineer-in-charge regarding availability of tools & tackles, equipments, vehicles etc at site. The Contractor shall also furnish the checklist as per **ANNEXURE- A** enclosed with the Section-F of tender document along with the RA bill of respective quarter.

- (v) While making running account payment, the following deduction may be made by GIPCL, if applicable
 1. Cost of material issued, if any, by GIPCL and to the extent consumed in the work,
 2. Security Deposit recoverable if any.
 3. Advance on material/ work progress advance payments, if any.
 4. LD/Plenty for delayed delivery, plenty for delayed execution of work, recovery of charges for the work done by other contractor due to delay or any other reason, if applicable.
 5. Any other dues recoverable by GIPCL from the Contractor under contract.
- (vi) The contractor along with Quarterly chemicals Bill shall submit copy of P.F. Challan, Xerox copies of wages register of previous month, Xerox copies of attendance sheet of respective month & copy of ECR statement indicating the employee and employer's P.F contribution of previous month with respect of employees employed by him for the contract at GIPCL site.
- (vii) The Contractor shall submit his Final Bill within a period of four months of the expiration or earlier termination of the contract or any extensions that may be granted by GIPCL to the Contractor. GIPCL shall not entertain any bill for any work item after expiration of period of four months.
- (viii) The Contractor shall include all his claims in the Final Bill submitted by him and accordingly the final bill submitted by the Contractor shall be deemed to be inclusive of all and whatsoever the claims that the Contractor may have from GIPCL. The Contractor shall not be entitled to claim any amounts which are not mentioned in the Final Bill and the Contractor shall be deemed to have waived any claims not mentioned in the Final Bill and shall not be entitled to recover the same from GIPCL subsequent to the submission of the Final Bill on any account and GIPCL shall stand absolved of all its liabilities in respect of any such claims not raised by the Contractor in his Final Bill.

B. Validity and informality of Rates :-

The rate shall be valid for a period of two years of the Contract period and shall remain unaltered during Contract Period.

5. Submission Of Technical Documents To The Engr-In-Charge:

Contractor shall submit following documents to the Engineer-in-charge for verification purpose of the bill:-

- (i) Manpower attendance sheet, Wage Register, Chemicals Invoice and Third party Water Sample Analysis Report (Quarterly) duly signed by authorized representative of contractor and GIPCL Engineer / Executive.

The bill will not be entertained without submission of above documents.

6. Submission of Statutory Compliances With Bill:

Contractor shall submit each chemicals bill of work carried out along with following documents.

- (i) Copy of statutory compliance like labour license, wages payment register, EC Policy, PF paid Challan with ECR, etc...along wage certificate pertaining to respective bill period.
- (ii) Notarized Indemnity Bond as per Performa, in case of Final bill.
- (iii) No claim - No arbitration certificate as per Performa, after releasing final bill payment.

Bill submitted without any of the above documents shall not be processed for payment.

7. MEARUSERMENT & DAILY REPORTS

Daily make up and cooling water parameters need to be analyze by the Contractor and submit report to GIPCL executive.

8. Mobilization and Execution:

- a) Contractor shall mobilize the resources at site within 04 hours from the time the intimation given by GIPCL.
- b) Contractor shall provide required separate & independent site supervisor who will be responsible for supervision and execution of job in specified time with respect to quality, specifications, site preparations, safety, co-ordination with GIPCL, issue of work permits, joint measurements, etc... The supervisors shall coordinate with the Engineer-in-charge of GIPCL for proper execution of the job.
- c) The resources required for execution of above jobs will vary from time to time, hence contractor shall mobilize the resources accordingly.
- d) Contractor shall provide accommodation for the persons deployed by him for the work at his own cost.

9. Quantity Of Work:

Bidders to indicate quantity of chemicals considering the parameter mention in Annexure-I of Section-D including PLF. Additional chemical required more than prescribed to maintained the system healthiness , should be provided (after consulting with Head C&L) by the vendor at free of cost.

In case, contract quantity/amount exhausted before completion of contract due to factors like increase in PLF of plant or others, GIPCL reserve the rights to increase the quantities or contract amount for successful completion of entire contract period. Contractor shall responsible to complete the particular job up to entire satisfaction of Engineer-in-charge. The item rates remain firm & unchanged till completion of the contract and any agreed extensions thereafter and shall not be subject to any escalation, idle charges for labor, machinery, overhead expenses etc... for any reason whatsoever. The quantum of work of individual item may be up to any extent depending upon requirement. However, item rate remains unchanged. Under this contract, contractor has to execute all work as per the Plant requirement.

Contractors shall engage required nos. of labors along with required tools & tackles as per work load and emergency situations throughout the contract period to perform his contractual duties.

10. General Conditions of Contract:

General Conditions of Contract (Section-C) and detail specification prepared by the company will be applicable for this contract. The same is enclosed herewith. Bidders are advised to go through the same.

Where any portion of the general conditions of contract is repugnant to or at variance with any provisions of the special conditions of contract, then unless a different intention appears, the provision of the special conditions of contract shall prevail to the extent of such repugnancy of variance.

11. COVID-19

It is well aware about nationwide spread of COVID-19 pandemic for which Government of India as well as Government of Gujarat are circulating various guidelines time to time for prevention of spread & protection of human being. GIPCL also being a responsible organization, implementing such guidelines along with specific directions & advisories to all employees, contractors & workers on time to time.

All the interested parties, bidders, successful contractors shall have to follow all such instructions, advisories, guidelines related to COVID-19 which are at present in force and which may come into force at their own cost.

In order to implement such guidelines, all required expenditures towards providing approved mask, sanitizer, etc... shall be in the scope of contractor

ANNEXURE- I

Scope and Technical Specifications for Cooling Water Treatment at – SLPP:

Preamble:

Gujarat Industries Power Company Limited (GIPCL) is a premier power Generating Company, adopting Conventional method using Natural Gas & Lignite as a fuel and Non Conventional method – Solar & Wind. GIPCL - SLPP unit is located at village Nani Naroli, Mangrol, Dist. Surat has two units: Phase I - 250 MW (125x2) & Phase II - 250 MW (125x2) capacities each. The plant is based on CFBC technology, using Lignite as a fuel.

The scope of Cooling Water (CW) Treatment Program is for management of treatment of cooling water. The main objective of this treatment program is:

- To improve Cooling Tower Efficiency / Performance
- To improve vacuum at Condenser
- Maintaining expected COC / Increase COC, while optimize the treatment cost & water consumption.
- Maintain cooling water chemistry to avoid scale & corrosion in the system.

The aim of this contract is to carry out treatment of cooling water to control scale; corrosion and fouling with suitable non-chromate based chemicals/ formulations and its executions as per system requirements. The chemicals & its concentrations that are non-hazardous & environmental friendly shall be used to achieve the objective. Since the cooling tower blow down water is directly disposed off from the site without any further treatment, it shall be ensured that in the treatment program the concentrations of the chemicals does not exceed the consent conditions of the GPCB in the final blow down under any circumstances. (GPCB consent parameters attached as Annexure-II)

The total quantity of cooling water required for the condensers and heat exchangers of auxiliary cooling water system of 2 x 125 MW units phase-I is 38000 cu.m/hr and 2X125 MW units Phase-II is approximately 38000 cu.m/hr.

Phase-I (Unit 1 & 2)

Technical specification of Cooling Tower:

- | | | | |
|-----|---------------------------|---|--|
| 01. | Number of Cooling Towers | : | Two with common fore-bay open channel. |
| 02. | Number of cells per tower | : | Nine |
| 03. | Type of Cooling Tower | : | Induced Draft |

04.	Total Circulation rate	:	38000 cu.m / hr. (Approx.)
a)	Flow across each condenser	:	14800 cu.m / hr. (Approx.)
b)	Flow across heat exchanger of Auxiliary system	:	2070 cu.m / hr. (Approx.)
c)	Margin flow 19000– (14800+2070)	:	2130 Cu.m/ hr. (Approx.)
05.	System holding capacity	:	26800 Cu.m (Approx.)
06.	Evaporation loss	:	720 m ³ /hr. (Approx.)
07.	Blow down water for calculation of dosing chemical quantity.	:	144 m ³ /hr.
08.	Side stream filter available	:	3% of circulation rate.
09.	Operating COC	:	6.0

Technical specification of Surface Condenser:

01.	Nos. of Surface Condensers	:	2
02.	Nos. of water side passes	:	2
03.	Quantity of cooling water (Approx.)/condenser.	:	14800 cu.m
04.	Cooling water I/L & O/L temp.	:	31.0 & 41.0°C (nominal)
05.	Tube material:		
a)	In Condensing Zone	:	Cu-Ni 90/10, SB111 C70600
b)	In Air Cooling Zone	:	SS SA 249 TP 304.
06.	Tube sheets, Channels & Water Boxes	:	CS SA 516 GR 70.
07.	Piping & Valves	:	CS
08.	Velocity of Cooling Water	:	1.94 m/sec. (Approx.)

Technical specification of Package Air conditioning cooling water system:

1) <u>Phase – I Cooling Tower</u>	:	Four (04)
Hold up capacity	:	3.5 M3
Metallurgy of Condenser	:	Copper
Nos. of Condensers	:	12 nos.

Technical specification of Plate Heat Exchanger:

- | | | |
|--------------------------------------|---|----------------|
| 01. Inlet cooling water temperature | : | 36°C (nominal) |
| 02. Outlet cooling water temperature | : | 45°C (nominal) |
| 03. Plate material | : | SS 316 |

Phase-II (Unit 3 & 4)

Technical specification of Cooling Tower:

- | | | |
|--|---|--|
| 01. Number of Cooling Towers | : | Two with common fore-bay open channel. |
| 02. Number of cells per tower | : | seven |
| 03. Type of Cooling Tower | : | Induced Draft |
| 04. Total Circulation rate | : | 38000 cu.m / hr. (Approx.) |
| a) Flow across each condenser | : | 16000 cu.m / hr. (Approx.) |
| b) Flow across heat exchanger of Auxiliary system | : | 2070 cu.m / hr. (Approx.) |
| c) Margin flow 19000–(15000+2070) | : | 1930 Cu.m/ hr. (Approx.) |
| 05. System holding capacity | : | 18000 Cu.m (Approx.) |
| 06. Evaporation loss | : | 720 m ³ /hr. (Approx.) |
| 07. Blow down water for calculation of dosing chemical quantity. | : | 144 m ³ /hr. |
| 08. Side stream filter available | : | 3% of circulation rate. |
| 09. Operating CoC | : | 6.0 |

Technical specification of Surface Condenser:

- | | | |
|--|---|-------------------------|
| 01. Nos. of Surface Condensers | : | 2 |
| 02. Nos. of water side passes | : | 2 |
| 03. Quantity of cooling water (Approx.)/Condenser. | : | 16000 cu.m |
| 04. Cooling water I/L & O/L temp. | : | 31.0 & 41.0°C (nominal) |

05. Tube material:
- a) In Condensing Zone : SS 304
 - b) In Air Cooling Zone : SS SA 249 TP 304.
06. Tube sheets, Channels & Water Boxes : CS SA 516 GR 70.
07. Piping & Valves : CS
08. Velocity of Cooling Water : 1.94 m/sec. (Approx.)

Technical specification of Package Air conditioning cooling water system:

1) Phase – II Cooling Tower : Three (03)

Hold up capacity : 3.0 M3
 Metallurgy of Condenser : Copper
 Nos. of Condensers : 3 nos

Technical specification of Plate Heat Exchanger:

01. Inlet cooling water temperature : 36°C (nominal)
 02. Outlet cooling water temperature : 45°C (nominal)
 03. Plate material : SS 316

GIPCL is drawing the raw water from bed of Tapi River through pipeline and is stored in RCC reservoir inside the plant. After chlorination and clarification, Clarified water is used for Cooling Water make-up. The analysis of make-up water is as below:-

Sr. No.	Parameter	Unit	Range
01.	pH		7.5 to 8.5
02.	Conductivity	Micro-Siemens	300 to 450
03.	Total dissolved solid	ppm	200 to 300
04.	Turbidity	NTU	<25 NTU
05.	Total Hardness as CaCO ₃	ppm	120 to 160
06.	Calcium Hardness as CaCO ₃	ppm	60 to 90
07.	M-alkalinity as CaCO ₃	ppm	125 to 175
08.	Chloride as CaCO ₃	ppm	20 to 50
09.	Silica as SiO ₂	ppm	20 to 30
10.	Iron as Fe	ppm	0.2 max.

Note: Side Stream Filtration is available in both CW systems

1. Technical Requirements for Proposed cooling water treatment Program:

A. General requirements of Cooling water treatment Package:

- a. Vendor shall provide treatment program consisting :
- Chemicals that are Biodegradable, non-toxic, non-hazardous and non-chromate based.
 - Orthophosphate & Zinc as Corrosion inhibitor.
 - Organophosphate & Polymeric dispersant for deposit control
 - Bio Dispersant
 - Oxidizing and Non Oxidizing Biocide
 - Azole base (Only for Phase -1)

A toxicological test report & MSDS should be submitted along with the offer for all the chemicals supplied. The cooling water treatment shall comprise of zinc as the cathodic inhibitor and stabilized ortho-phosphate as the anodic inhibitors combined as a single formulation. Individual chemicals as cathodic and anodic inhibitors in basic chemicals forms are not acceptable. The products offered should be field tested and proven.

- b. Vendor should offer the Cooling water treatment program /scheme which is well proven in other industries with similar kind of circulation rate, technically proven & suitable to our plant in terms of metallurgy, environment , safety norms and consent conditions (Annexure-II)etc. GIPCL is free to accept / reject the part of schemes or full scheme.
- c. The chemical should not have any deleterious effect on any component of the Cooling water system including Condenser, Heat Exchangers and the packing material of cooling tower.
- d. A dedicated scale inhibitor cum dispersant program shall be included in the program for dispersion of iron, general scale, and sludge to take care of chances of scaling / deposition inside Heat Exchangers, Condenser and Tower Fill Packs. Treatment should ensure no scaling in above mentioned areas of interest. There should not be reduction in heat transfer capacity of heat exchanger, due to fouling or formation of deposits so as to achieve Vacuum at Condenser at desired level. And also treatment should ensure no pitting across condenser and heat exchangers with corrosion in admissible control.
- e. Effective control of biological growth shall be provided by using suitable biocide, bio dispersant together.
- f. Chlorine supplied by SLPP is to be dosed to maintain free residual chlorine.
- g. It is required to have continuous dosing of chemicals (excluding Sulfuric Acid supplied by GIPCL) by metering pumps only. The dosing equipment required for implementing the treatment program shall be brought, installed with stand & cover, commissioned and maintained by the contractor adopting site safety standards. They should be of proven design and fit for the chemical dosing

purpose. Electrical power supply will be given by GIPCL at free of cost. Sulphuric acid dosing shall be carried out by gravity.

- h. Dosing equipment brought to site by the vendor shall be operated and maintained by vendor staff at site. Successful vendor shall provide Calibration report of dosing equipments.
- i. Vendor shall maintain stand by dosing pumps at site, to avoid any disturbance for continuous dosing of chemicals in the cooling water.
- j. Chemicals shall be supplied in New HDPE containers to site. The containers must be properly sealed and also shall be labeled properly with name, brand name, batch no, expiry date etc. After using of chemicals, empty carboys will not return to contractor.

Each batch of chemicals should have test certificate that all chemicals are bio-degradable (preferably within 24hrs), environment friendly and do not fall under banned category.

- k. Vendor shall provide the quality control check procedure for each chemical supplied. Each dispatch of the chemical shall have quality check details from the manufacturer's lab. If required, these chemicals upon receipt will be first analyzed in GIPCL lab before accepting the consignment and will be accepted/rejected based on analysis results. In case active ingredient found lower with respect to minimum of the value specified by party, deduction from the delivered cost on pro-rata basis, shall be done for said total chemical supplied in that lot. In addition to above, cost of testing if done from lab other than GIPCL's own laboratory, shall be borne by vendor for such case. Opinion of GIPCL officer regarding acceptance / rejection of chemicals will be considered final.
- l. Vendor should maintain required barrel pumps, transfer pumps at site for handling of chemicals.
- m. Total quantity of chemicals should be sufficient for minimum 2 months stock or reasonably adequate quantities of each chemical at site.
- n. Vendor is advised to visit plant site and submit proposal only after extensive survey, ascertaining quality of make-up, circulating water, blow down, equipment metallurgy etc. Vendor is free to quote chemicals based on formulations for water quality data to meet the guaranteed parameters. Vendor is required to refer instructions points and have to either to provide acceptance of each or give comments at a time of Site Visit.
- o. Vendor shall take into account the seasonal variations in the input water quality for the treatment purpose.

Vendor shall depute one trained, experienced & competent Site In charge / chemist as mentioned in Service section, at our site throughout the contract period for managing day to day affairs.

- p. Site in charge in presence of GIPCL official shall carry out any require analysis to monitor the necessary treatment parameters. Lab facilities shall be provided to the vendor for the above analysis. If any laboratory chemicals not available in GIPCL Laboratory store then vendor should be arrange required lab chemicals with own cost for supplied chemicals analysis and cooling water parameters analysis.
- q. Corrosion coupon will be assessed (Monthly) jointly by GIPCL and vendor. Corrosion coupon racks required for all four (0 4) units.
- r. The vendor (authorized representative) shall visit quarterly on site and take cooling water sample (each phase) and sample analyze shall carry out in third party reputed Laboratory. Reports shall be submitted to GIPCL within 15 days and Analysis parameter shall cover Chemical & Biological Parameter as decided by GIPCL.
- s. The vendor shall submit detail operating procedure, manual of monitors & contingency procedure (in emergency scenario considering high (Cu) corrosion rate, Condenser DP, vacuum, salinity ,turbidity ,pH excursion ,non availability of chlorination, condenser leakage etc.)
- t. Microbiological analysis of circulating water will be carried out monthly basis by vendor.
- u. Successful Vendor shall provide method of Chemical Analysis along with active content, details of instruments/reagents required for testing of various chemicals, active content in bulk chemicals and their value before start of the treatment.

B. Performance / Guarantee Parameters:

6. Plant operating/Chemistry limiting parameters:

Following operating parameters need to be maintained on continuous basis. Optimum Blow down rate (M3/hr) will be based on these limiting parameters:

- a) **pH** of water will essentially tend to neutral condition of the Ryzner stability index (non-scaling, non-corrosive). Broadly, it should be in the range of 7.5-8.5 (Vendor to suggest the operating pH range within above range based on the chemicals/formulations to be used).
- b) **Suspended solids:** Total suspended solids within the CW system should not increase beyond 50 mg/l & ideally it should be maintained below 25 mg/l. The dosing regime will be designed to take care of CW makeup water input turbidity of 5 NTU & overall CW suspended solids not exceeding 50 mg/l.

2 Chemistry based Performance parameters:

Following are identified as the ones that need to be controlled & maintained within the limits to ensure long term integrity of the plant:

- a) **Scale control** - It shall be evaluated based on the Ryzner index values & other observations described below:
- The Ryzner Index value should be neutral in all circumstances.
 - It is not envisaged to go for condenser or any other cooling surface cleaning with treatment regime in place. However, if opportunity arises, water jet cleaning of the condenser may be carried-out by the owner. The treatment program should ensure no scaling. However, if some scale exist that should be loose, non-adherent type that can be easily removed by water jetting.
 - Components of the deposit collected & analysis by the Contractor and report of results should demonstrate the satisfactory performance of hardness control.
 - Similarly, it is not envisaged to carryout cooling tower fill cleaning. Visual inspection of the fills & or weight gain measurements may be carried out from time to time. These results should not indicate any abnormal level of deposition. However vendor can reasonably suggest for online cleaning of cooling tower fill provided that he should be able to demonstrate the performance improvement after cleaning.
- b) **Silt deposit control** - Presence of silt in fills, cooling tower basin, condenser water box & condenser tubes will be monitored.
- c) **Bio-fouling control** - Performance is measured based on the results indicated by the bio-fouling of lab results for biological activity.
- Visual inspection of the cooling tower structure, fills, columns, culvert, surfaces should not reveal any biological growth.
 - Total bacterial or viable count (TBC) should be less than 10^5 counts/ml. Site in-charge will decide the interval & locations of the sample to be collected.
 - Total Sulphate reducing bacteria count should be less than 100 col. /100ml. Site In-Charge will decide the sampling intervals & locations of the sample to be collected.
 - Cooling tower/condenser/heat exchange surfaces/inspections as mentioned previously should not reveal any bio fouling.
 - Free residual chlorine of 0.5 ppm is to be achieved in cooling water through chlorine dosing and oxidizing biocide.
- d) **Corrosion** - Performance of treatment program in terms of corrosion control will be evaluated based on the following measurements:

Copper corrosion:

- Rate should be less than 0.10 Miles Per year (MPY) as measured using standard CU-Ni coupons (90-10). ASTM standards will be followed for measurements/ preparation techniques & installation of the coupon.
- Water-soluble Cu levels in cooling water will be measured at regular interval.
- The traces of copper in condenser deposit analysis (if any) shall be within the justifiable limits of copper corrosion rate.

Iron / Mild Steel corrosion:

- Rate should be less than or = 02 Miles Per year (MPY) for Carbon Steel & less than or = 0.05 Miles Per year (MPY) for S.S. as measured using standard coupons. ASTM standards will be followed for measurements/ preparation techniques & installation of the coupon.
The traces of iron in Heat exchanger deposit analysis (if any) shall be within the justifiable limits of iron corrosion rate.

Microbiological Induced Corrosion:

- Micro biological induced corrosion rate (MIC) should be in control. Heat exchanger surface inspection & spool piece or any dismantled equipment/pipe work inspection should reveal no evidence of MIC.

3. Plant Technical Performance parameters

These parameters essentially guaranty following parameters:

- **Cycle of Concentration (COC):** You shall maintain agreed COC in circulating water throughout the contractual period. (**Desired COC = 6.0**)
- **Vacuum at Condenser:** You shall ensure, monitor and record vacuum at mutually agreed level.

C. Alternative chemicals for water Treatment:

The contractor may sometimes find it necessary to change one or two chemicals during the treatment based on his experience regarding efficacy of the chemicals in use. Since the contractor shall be in better position to know regarding nature of make-up, circulating water and effectiveness of the treatment, after carrying out the treatment for some time, allowing use of alternative chemicals is considered in the interest of achieving better results.

For this purpose vendor shall specify all such alternative chemicals along with their unit rates in the quotation itself. Main chemical shall be taken for the purpose of bid evaluation and calculating guaranteed cost. Any chemical not in the bidding list, if needed can be agreed after mutual discussion and prior approval of unit in charge. Based on the suitability, the proposal will be evaluated & accepted/rejected by the owner. However, the overall guaranteed cost shall remain the same.

D. Change in Dosing

The normal blow down rate shall be based on the set COC targets. It is not envisaged to increase the blow down rate with the optimum chemical being dosed. Change in chemical concentration/formulation, if any required, shall first have to undergo technical approval. (Old chemical dosing shall be continued till obtaining approval). The techno-commercial reasons to change the concentration or chemicals/formulations, without affecting the integrity &

performance of the system, that will be intimated with supporting document for concurrence & justify that new chemical/formulation will be of equivalent cost. Any higher cost implications for such change of chemicals will be to the account of vendor. Any reduction in cost for buying such new chemicals/formulations shall be passed on to the owner.

If vendor fails to meet the performance parameter and Blow down is required to be increased than equivalent additional chemical quantities shall be dosed to keep the optimum concentration. Vendor shall bear the additional cost.

E. Monitoring:

Vendor will set up monitoring equipment & stations for on line monitoring of dosed chemicals & their performance at his cost. Vendor should clearly mention details of the monitoring instruments which will be supplied free of cost with the package for use at site on returnable basis. The monitoring systems installed by the bidder will be of standard, proven design. While ascertaining the performance, results of monitors will be taken into considerations. Following monitors and coupons shall be installed and special analysis to be carried out as mention below:

- a. Online ORP meter (Two working & One standby)
- b. Coupon Rake & Coupons: Coupons will be fixed at the starting of the treatment and replaced for analysis at monthly Quarterly, half yearly and annual frequency respectively. Vendor shall provide ASTM A 53 grade - CS, SS & Cu Ni – for each along with rakes.
- c. Analysis kits with reagents for special analysis (e.g. TBC, SRB etc.)
- d. Comprehensive, state of the art in line with treatment on day to day basis at a site shall be reported to Head C&L Department, indicating following parameters will be preferred.
 1. Corrosion Rate
 2. Scale / Fouling Condition
 3. Important Circulating water parameters
 4. Dosing chemical details with consumption
 5. Monthly Report Display
 6. Tower efficiency / Approach
- e. Vendor shall be responsible for operation of S.S.F, chlorination, as well as chlorine tonner loading and unloading and acid unloading in his quoted rates.
- f. Pretreatment plant chemical preparation under Vendor's scope. And Vendor shall assure Clarifier outlet water Turbidity < 5.0 NTU, by Polyelectrolyte (to be supplied by Vendor) & Poly Aluminum Chloride (5.0 ppm) (to be supplied by GIPCL) for treatment.

After completion of contract period rest of chemicals will be returned to the vendor or otherwise supplier will provide the free service up to consumption of all chemicals. Decision of GM (SLPP) shall remain binding to the Agency.

The above mentioned monitoring equipments are identified as the minimum requirement for smooth operation of the system however other monitoring techniques, if required, will be identified and installed on mutual agreement.

The instruments shall be calibrated at certain frequency as per manufacturer recommendations and result should be submitted.

F. Services:

You have to provide following manpower for dosing and monitoring purpose.

Site In-charge:

You should depute site In-charge who would be permanent employee of the company and qualified with B.Sc/ M.Sc degree in chemistry and having minimum five (05) years experience in the Cooling Water Treatment as site in charge. The analysis of Raw material done by your site engineer in presence of our executives will be considered final for material rejection / acceptance. He will work during 08:30 to 17:30 hrs in co-ordination with GIPCL Chemist.

Chemist:

Each chemist shall possess minimum qualification of B.Sc. with chemistry / Diploma in Chemical. They will work in shifts. (Round the clock)

- The Site Engineer and Chemist posted shall report to HOD – C&L & shall follow the instructions / guideline of HOD- C&L time to time. Site in-charge/ Chemist shall set all required dosing functions / parameters of metering pumps, so that uninterrupted dosing of chemicals in CT will not get affected.
- The Site Engineer and Chemist posted at GIPCL site should stay in our GIPCL colony on chargeable basis to meet the site requirement. Up & down from near-by cities to GIPCL-SLPP shall not be permitted. (E.g. Surat / Ankleshwar etc).
- Lunch / Breakfast / Tea- Coffee etc. availed by all deputed staff of Vendor shall be on chargeable basis as per GIPCL's policy.
- Issue of dosing chemicals from stores and keep at designated dosing location, maintain the operating levels in dosing tanks and Loading & Unloading of chemicals is in Vendor's scope.
- Chemist shall calculate dose & monitor quantity of those chemicals which is being dosed continuously to deliver the performance parameters listed in Section-H while maintaining the operating parameters.
- Take daily field round, collect & record the technical data associated with CW treatment regime.
- Take daily reading from DCS. (if available)
- Take Daily round of monitoring skids & note down readings.
- Carry out analysis of makeup & cooling water daily.
- Regularly keep Head of C&L department informed regarding activities of treatment and observations monitored.
- At regular interval, readings of CW system & condenser shall be collected by vendor and submitted with comments/suggestions & corrective actions. Detail

format & data collection interval shall be mutually agreed with Head of C&L department.

- Submission of monthly report on water quality, monthly consumption of chemicals, observations & recommendations to head C&L department.
- Availability of technical expert who has to visit the site periodically and as & when required on call basis.
- Any other relevant work associated with CW Treatment.

Unskilled labor:

Vendor shall have to deploy sufficient unskilled/helper manpower as per site requirement to execute all work covered in contract terms and condition.

G. Instructions to the Vendors

Sr. No.	Pre-Bid requirements	Accepted/ Not Accepted	Remarks
1.	One representative team of the Vendor shall essentially visit the site before submission of technical offer for data collection (other than provided in scope of work), for evaluating current status of cooling tower, monitoring system & dosing arrangement and for discussion & clarification on Scope of work.		
2.	Vendor team shall collect required water samples for analysis in their laboratory to develop formulation of treatment regime.		
3.	Vendor is expected to put up a written request for the list of data other than mentioned in this document which is required by them for making and submission of bid.		
4.	The scope of work shall essentially be discussed during site visit prior submission of bid to have clarity and complete understanding.		
5.	Vendor shall indicate the maximum consumption of each regular chemical to be supplied by him on the basis of 80% PLF of Phase 1 & Phase 2. Maximum payable / guaranteed contract amount shall be calculated for yearly actual consumption.		
6.	Vendor shall also mention maximum consumption of sulphuric acid (not exceeding 50 Tons/Tower/month) & Chlorine gas (not exceeding 4.5 Tons/Tower/month) supplied by GIPCL.		

7.	Vendor should specify the time period for stabilization (in case) before start of normal treatment programme. Maximum stabilization period shall be 30 days from startup of cooling water treatment.		
8.	<p>Vendor shall clearly indicate the constituents and active components of the chemicals/formulation used for the treatment. For all the chemicals that are going to be a part of the CW treatment for protection against scale, corrosion, bio fouling and silt deposition the bidder is required to furnish the following information related to them:</p> <ul style="list-style-type: none"> ➤ The ppm level of dosing recommended for each chemical and the reason for the same. ➤ Frequency of monitoring the residual level of the added chemicals in CW water. ➤ The method to analyze the residual levels of the treatment chemicals in the system. ➤ Analysis method for the active ingredient present in to individual product. ➤ Lab results on inhibition effect of the formulation will also provided by the supplier/contractor. 		

➤ **Active content required in product supplied by Vendor:**

Sr. No	Item Particular	% Active Content
1	Ortho Phosphate	50%
2	Organo Phosphate	50%
3	Zinc	14%
4	Polymeric Dispersant	25%
5	Bio dispersant	50%
6	Non Oxidizing Biocide	50%
7	Azole	50%
8	Polyelectrolyte	40%

- NOB calculates 44800 m3 holdup volume and minimum 10ppm dose ones in every quarter (both phase).
- Azole is calculated for Phase-I only.
- Poly-Electrolyte is calculated on daily consumption of 30 MLD (Million Liter per Day) water based on jar test result (< 5 NTU) to be performed.
- Recommended Dose for Bio Dispersant should be 1ppm.

➤ **Polymeric Dispersant:**

- Polymeric Dispersant should be Low Molecular based preferably Ter / Co Polymer of Acrylic & Sulphonic Acid.
- Polymeric Dispersant should give Minimum Calcium Phosphate Inhibition of 95 % at pH of 8.0.
- Recommended Dose for Polymeric Dispersant should be 7.0 ppm.

If more than quoted quantity of chemicals is required during contract period to mitigate guaranteed parameter, bidder shall supply free of cost.

H. Following levels of Parameters / Inhibitors/Chemicals in circulating cooling water are to be Maintained / Guaranteed:

Sr. No.	Parameters	Control limit
01.	pH	7.5 to 8.5
02.	Residual Zinc as Zn	Min. 1.0 ppm
03.	Residual Orthophosphate as PO ₄ (Inorganic)	Min.4.5 to 5 ppm
04.	Residual Organophosphate as PO ₄ (Organic)	Min. 2 to 2.5 ppm
05.	Residual Total Phosphate as PO ₄	Min. 6.5 ppm
06.	Residual Chlorine	Min. 0.50 ppm
07.	Iron Corrosion for Mild Steel	Max. 2.0 mpy
08.	Copper Corrosion	Max. 0.10 mpy
09.	S.S. Corrosion	Max. 0.05 mpy
10.	Suspended Solids	Max. 50 ppm
11.	Ryzner Index Value	Neutral
12.	Cycle Of Concentration (COC)	6.0
13.	Total Bacterial Count (TBC)	Max. 10 ⁵ Counts/ml
14.	Sulphate Reducing Bacteria (SRB)	Max. 100 Col./ 100 ml
15.	Turbidity of input water	Max. 5.0 NTU
16.	Residual Azole (in Phase I)	Min 1.0 ppm

I. Pre Treatment Programme:

The Pre treatment program is based on PAC and cationic poly electrolyte. Vendor shall assure clarifier outlet water Turbidity < 5.0 NTU.

- Polyelectrolyte Quantity and dosing rate for pretreatment plant is pre decided and party has to performed the jar test in GIPCL laboratory, as per given specification before tender close date.
- Poly Aluminum Chloride (PAC) concentration: 5 PPM
- Quality parameter require: < 5 NTU
- Certificate: Potable water grade certificate from authorized organization.
- PAC will be supplied by GIPCL.
- Pre treatment water quantity 30 MLD maximum.

J. GIPCL Scope :

- Sulfuric Acid: 100 tons / month (max)
- Chlorine: 9.0 tons / month (max)
- PAC: As per requirement (5 ppm dose.)

K. Penalty Clause:

Penalty shall be applicable in the following cases:

01. If the guaranteed parameters like corrosion rate, scaling, microbiological growth (TBC + SRB), Condenser Vacuum, pitting corrosions, Tower fill pack condition, COC and effect of polymeric dispersant are not achieved to the satisfaction of concerned executive then 10% of the cost of chemicals for the particular period shall be deducted.
02. If online Monitoring System is not working more than 10 days the cost of chemical for particular days will be deducted from the Bill.
03. Landed cost of the chemical shall be considered for calculating the deductions.
04. In the absence of skilled manpower penalty of Rs.1000/- and Rs.500/- for unskilled manpower per day shall be recovered from vendors bills.
05. If any deputed contract person found not equipped with required PPEs (as per safety norms of GIPCL), then Rs. 500/ - will be charged on each instance as penalty to Vendor. And on repeated violation of safety norms, (more than three times) particular deputed person of vendor will be asked to be relieved from GIPCL plant.
06. Corrosion coupon shall be provided in advance, if vendor fail to fulfill the requirement then 10% cost of the chemicals for the particular period shall be deducted.
07. Condenser's efficiency must be more than 95% as per design parameter , if condenser is work less than 95% efficiency to the cause attributable to CW Water Treatment, then 10% cost of the chemicals for the particular period shall be deducted. Efficiency of condenser certified by Technical Service Department shall remain binding to both.
08. If any force shutdown occurs in plant due to incompetence of cooling water treatment, then 20% cost of the chemicals for total contract period shall be deducted.
09. Polyelectrolyte dosing shall not increase as per recommended by party as per JAR Test. If consumption of polyelectrolyte quantity is increased then cost shall be borne by vendor.
10. All chemical should be dozed through dozing/metering pump if chemicals will be dozed without dozing/metering pump, cost of chemical for particular days will be deducted from the quarterly chemical Bill.
11. If Additional chemicals required to maintain the system healthiness, Contractor shall borne chemical cost.

L. Mobilization:

Vendor should mobilize chemical in such a way that at least two months stock shall remain available at plant, so that treatment can go smoothly uninterrupted for 60 days.

Regular Cooling water treatment chemicals quantity shall be supply in lot wise. Before sending the chemicals lot at site, vendor should be taken the permission from HOD (C&L).

In each lot, three (3) months chemical quantity need to be supply by the Contactor and stock to be maintain at least two months.

TECHNICAL BID

Quantity of Chemicals to be mentioned is on the basis of 80 % PLF of Phase #1& 2. However Order and the procurement shall be on the basis of actual operational requirement.

Sr. No	Item Particular	Manufacture Cat Ref No	Min. Active content (%)	Dosage ppm	Estimated Qty. (In Kg) for mentioned PLF for Two Years
1	Corrosion Inhibitor (Zinc & Phosphate base) Orthophosphate		Ortho Phosphate – 50 % & Zinc 14%	9.0	36329
2	Polymeric Dispersant		25%	7.0	28256
3	Antiscalant Organic Phosphate as PO_4^{-3}		50%	4.0	16146
4	Azole (Only for Phase – 1)		50 %	2.0	4037
5	Bio dispersant		50%	1.0	4037
6	Non oxidizing Biocide		50%	10	3584
7	Cationic poly electrolyte (For Pre treatment plant)		40 %	0.3	5256

PROFORMA OF BANK GUARANTEE FOR ORDER PERFORMANCE **(To be stamped in accordance with Stamp Act)**

Ref:

Bank Guarantee No.....

Date

Bank Guarantee Cover period from to

To
M/s. Gujarat Industries Power Company Limited
Surat Lignite Power Plant,
Vill- Nani Naroli, Ta- Mangrol, Dist- Surat-394110
Gujarat.

Dear Sir,

In consideration of the Gujarat Industries Power Company Limited (hereinafter referred to as the Purchaser which expression shall unless repugnant to the context/or meaning thereof include its successors, administrators, and assigns) having awarded to M/s.....having its Registered Office/Principal Office at (address) (hereinafter referred to as the "CONTRACTOR" which expression shall unless repugnant to the context or meaning thereof include its successors, administrators, executors and assigns) a Order by issue of Purchaser's Letter of Intent No.....dated.....and same having been unequivocally accepted by the CONTRACTOR datedvalued atfor (scope of order)and the contractor having agreed to provide a Order Performance Guarantee for the faithful performance of the entire order including for the quality of the materials and/or workmanship, successful commissioning and satisfactory performance of the equipments/system and satisfactory services rendered during the guarantee/warranty period of Months under the said LOI/Order equivalent to.....*..... (Percent) of the said value of the order to the purchaser

(Name & address of Bank) having its Head Office at (hereinafter referred to as the "Bank" which expression shall unless repugnant to the context or meaning thereof, include its successors, administrators, executors, assigns) do hereby irrevocably guarantee and undertake to pay the Purchaser, on written demand any and all moneys payable by the CONTRACTOR to the extent of (in figures) (in words) as aforesaid at any time up to (days/months/year)

**..... without any demur, reservations, contest, recourse or protest and/or without any reference to the CONTRACTOR. Any such demand made by the Purchaser on the bank shall be conclusive and binding notwithstanding any difference between the Purchaser and CONTRACTOR of any dispute pending before any Court, Tribunal, Arbitrator or any other Authority.

....2

(2)

It shall be conclusive and enough for enforcement of the BANK GUARANTEE on the bank if GUJARAT INDUSTRIES POWER COMPANY LIMITED invokes the BANK GUARANTEE stating only that the default has been committed by the contractor, thus far and no further. The bank undertakes not to revoke this guarantee during its currency without previous written consent of the purchaser and continue to be enforceable till the Purchaser discharges this guarantee.

The Purchaser shall have the fullest liberty without affecting in any way the liability of the Bank under this guarantee from time to time to extend the time for performance of the Order by the CONTRACTOR. The Purchaser shall have the fullest liberty, without affecting this guarantee, to postpone from time to time the exercise of any powers vested in them or of any right which they might have against the CONTRACTOR, and to exercise the same at any time in any manner, and either to enforce or to forbear to enforce any covenants, contained or implied in the Order between the Purchaser and the CONTRACTOR or any other course of or remedy or security available to the Purchaser. The Bank shall not be released of its obligations under these presents by any exercise by the Purchaser of its liberty with reference to the matter aforesaid or any of them or by reason or any other acts of omission or commission on the part of the Purchaser or any other indulgence shown by the Purchaser or by any other matter or thing whatsoever which under law would, but for this provision, have the effect of relieving the Bank. The Bank also agrees that the Purchaser at its option shall be entitled to enforce this Guarantee against the Bank as a principal debtor, in the first instance without proceeding against the CONTRACTOR and notwithstanding any security or other guarantee that the Purchaser may have in relation to the CONTRACTOR's liabilities.

Notwithstanding anything contained herein above our liability under this Guarantee is restricted to Rs..... and it shall remain in force up to the includingunless a written demand to enforce any claim under this Guarantee is lodged with us before expiry date, the Bank will be discharged from its liabilities under this Guarantee. This Guarantee shall be extended from time to time for such period or period as may be desired by the on whose behalf this guarantee has been given.

PROFORMA FOR BANK GUARANTEE FOR EMD

(To be stamped in accordance with Stamp Act)

Ref

Bank Guarantee No.....

Date

Guarantee cover period: FromTo

To
Gujarat Industries Power Company Limited
Surat Lignite Power Plant,
Vill- Nani Naroli, Ta- Mangrol, Dist- Surat-394110

Dear Sirs,

In accordance with your "Invitation for Bids" under your Specification
No.....Dated.....
M/s..... having its
Registered/Head office at.....
(Herein after called the Bidder) wish to participate in the said Bid for
.....

As an irrevocable bank Guarantee against Bid guarantee for an amount of
Rs..... valid for one (1) year from is
required to be submitted by the Bidder as a condition precedent for participation in
the said Bid, which amount is liable to be forfeited on the happening of any
contingencies mentioned in the Bid Documents.

We, the Bank at,
having our Head Office at (local address)
..... Guarantee and
undertake to pay immediately on written demand by Gujarat Industries Power
Company Limited (hereinafter called the "Purchaser")
(In figures) (In
words) without any reservation, protest, demur
and recourse. Any such demand made by said "Purchaser" shall be conclusive and
binding on us irrespective of any dispute or difference raised by the Bidder. It shall
be conclusive and enough for enforcement of Bank Guarantee on the Bank if
Purchaser invokes the Bank Guarantee stating only that the default has been
committed by the Bidder, thus far and no further.

Contd....2

(2)

This Guarantee shall be irrevocable and shall remain valid up to if any further extension of this guarantee is required, the same shall be extended to such required period on receiving instructions from on whose behalf the guarantee is issued.

PERFORMA CERTIFICATE
(No claim, No arbitration)

To,
General Manager (SLPP)
Gujarat Industries Power Company Limited
Surat Lignite Power Plant,
Vill- Nani Naroli, Ta- Mangrol, Dist- Surat-394110

Dear Sir,

Subject: _____

Ref: Work Order

No.: _____ Dated _____

We hereby confirm with free consent as under:-

1. The measurements certified in final bill are full and final. We accept all the certified measurements and no claim related to the measurement is left.
2. The payment certified in that or above referred Lol / contract is full and final. We accept this, and no claim related to payment is left.
3. The rates of the Lol / contract and its amendments are firm till completion of contract and extension period. We shall not claim any escalation against these rates.
4. Along with the contract referred, the ARBITRATION CLAUSE also perishes i.e. we will not resort to arbitration.
5. No extra items are left to be settled.
6. We do not have any claims against any item related to the Lol than those items certified in the bills.
7. We are accepting the recoveries or hold amount from our bills, if any, made by GIPCL against non compliance or as decided by GIPCL within terms & conditions of contract.
8. We have paid royalties, taxes for all the materials procured by us, for carrying out the works for above Lol and we indemnify GIPCL from any liability arising thereof.
9. In case of any disputes arising in future related to payment of royalties, all liabilities of settlement of dispute and its payment if any, will be borne by us.
10. We have paid wages to all the workmen who were deployed by us for carrying out above referred work as per prevailing Minimum wages act. We have also fulfilled all requirements of the P.F. Act. We have maintained all records necessary as per the statutory requirements. We hereby indemnify GIPCL from any disputes arising in future related to payment of labours, Provident Fund, etc.. and confirm that all liabilities of settlements of disputes and their payment is our responsibility.

The above confirmation will come into effect as soon as payment from final bill after due recoveries will be received by us.

For, M/S. _____
